Carmina Burana: Thirty Poems - P.G. Walsh 1976

This is a translation of thirty poems from "Carmina Burana".

Medieval Latin - K. P. Harrington 1997-11-10

K. P. Harrington's Mediaeval Latin, the standard medieval Latin anthology used in the United States since its initial publication in 1925, has now been completely revised and updated for today's students and teachers by Joseph Pucci. This new edition of the classic anthology retains its breadth of coverage, but increases its depth by adding fourteen new selections, doubling the coverage of women writers, and expanding a quarter of the original selections. The new edition also includes a substantive grammatical introduction by Alison Goddard Elliott. To help place the selections within their wider historical, social, and political contexts, Pucci has written extensive introductory essays for each of the new edition's five parts. Headnotes to individual selections have been recast as interpretive essays, and the original bibliographic paragraphs have been expanded. Reprinted from the best modern editions, the selections have been extensively glossed with grammatical notes geared toward students of classical Latin who may be reading medieval Latin for the first time. Includes thirty-two full-page plates (with accompanying captions) depicting medieval manuscript and book production.

Beethoven, A Life - Jan Caeyers 2022-05-03

"This new biography of Ludwig van Beethoven offers connoisseurs and newcomers alike an unparalleled story of the composer's life and works, written by a renowned conductor and scholar of Beethoven's music. With unprecedented access to the archives at the Beethoven House in Bonn, Jan Caeyers expertly weaves together a deeply human and complex picture of Beethoven—his troubled youth, his unpredictable mood swings, his desires, relationships, and conflicts with family and friends, the mysteries surrounding his affair with the 'immortal beloved,' and the dramatic tale of his deafness. Caeyers also offers new insights into Beethoven's music, showing how it transformed from the work of a skilled craftsman to that of a consummate artist. Demonstrating an impressive command of the vast scholarship on this iconic composer, Caeyers brings Beethoven's world alive with elegant prose, memorable musical descriptions, and a vivid depiction of Bonn and Vienna, where Beethoven produced and performed his works. Caeyers explores how Beethoven's career was impacted by the historical and philosophical shifts taking place in the music world and how, in turn, his trajectory changed the music industry. Equal parts an absorbing cultural history and a lively biography, *Beethoven, A Life* reveals a complex

portrait of the musical genius that defined a style of music and went on to become one of the great pillars of Western art music"--

The Shipwreck Sea - Jeffrey M. Duban 2019-01-28

Sappho, in the words of poet Algernon Charles Swinburne (1837-1909), was "simply nothing less - as she is certainly nothing more - than the greatest poet who ever was at all." Born over 2,600 years ago on the Greek island of Lesbos, Sappho, the namesake lesbian, wrote amorously of men and women alike, exhibiting both masculine and feminine tendencies in her poetry and life. What's left of her writing, and what we know of her, is fragmentary, and thus ever subject to speculation and study. *The Shipwreck Sea* highlights the love poetry of the soulful Sappho, the impassioned Ibycus, and the playful Anacreon, among other Greek lyric poets of the age (7th to 5th centuries BC), with verse translations into English by author Jeffrey Duban. The book also features selected Latin poets who wrote on erotic themes - Catullus, Lucretius, Horace, and Petronius - and poems by Charles Baudelaire, with his milestone rejoinder to lesbian love ("Lesbos") and, in the same stanzaic meter, a turn to the consoling power of memory in love's more frequently tormented recall ("Le Balcon"). Duban also translates selected *Carmina Burana* of Carl Orff, the poems frequently Anacreontic in spirit. The book's essays include a comprehensive analysis with a new translation of Horace's famed Odes 1.5 ("To Pyrrha"), in which the theme of (love's) shipwreck predominates, and an opening treatise-length argument - exploring painting, sculpture, literature, and other Western art forms - on the irrelevance of gender to artistic creation. (No, Homer was not a woman, and it would make no difference if she were.) Twenty full-color artwork reproductions, masterpieces in their own right, illustrate and bring Duban's argument to life. Finally, Duban presents a selection of his own love poems, imitations and pastiches written over a lifetime - these composed in the "classical mode", which is the leitmotif of this volume. *The Shipwreck Sea* is a delightful and continually thought-provoking companion to *The Lesbian Lyre*, both books vividly demonstrating that classicism yet thrives in our time, despite the modernism marshaled against it.

The Love Songs of the Carmina Burana - 1987

A Primer of Medieval Latin - Charles Henry Beeson 1925

Printers without Borders - A. E. B. Coldiron 2015-04-09

This innovative study shows how printing and translation transformed English literary culture in the Renaissance. Focusing on the century after Caxton brought the press to England in 1476, Coldiron illustrates the foundational place of foreign, especially French language, materials. The book reveals unexpected foreign connections between works as different as Caxton's first printed translations, several editions of *Book of the Courtier*, sixteenth-century multilingual poetry, and a royal Armada broadside. Demonstrating a new way of writing literary history beyond source-influence models, the author treats the patterns and processes of translation and printing as co-transformations. This provocative book will interest scholars and advanced students of book history, translation studies, comparative literature and Renaissance literature.

Nine Medieval Latin Plays – Peter Dronke 2008-03-24

Nine outstanding plays composed during the period of the finest flowering of medieval Latin drama.

The Oxford Guide to Literature in English Translation – Peter France 2000
Translation has been a crucial process in world culture over the past two millennia and more. In the English-speaking cultures many of the most important texts are translations, from Homer to Beckett, the Bible to Freud. Although recent years have seen a boom in translation studies, there has been no comprehensive yet convenient guide to this essential element of literature in English. Written by eminent scholars from many countries, the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature. It highlights the place of translation in our culture, encouraging awareness of the issues raised, making the translator more 'visible'. Concentrating on major writers and works, it covers translations out of many languages, from Greek to Korean, from Swahili to Russian. For some works (e.g. Virgil's Aeneid) which have been much translated, the discussion is historical and critical, showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere, with less familiar literatures, the Guide examines the extent to which translation has done justice to the range of work available. The Guide is divided into two parts. Part I contains substantial essays on theoretical questions, a pioneering outline of the history of translation into English, and discussions of the problems raised by specific types of text (e.g. poetry, oral literature). The second, much longer, part consists of entries grouped by language of origin; some are devoted to individual texts (e.g. the Thousand and One Nights) or writers (e.g. Ibsen, Proust), but the majority offer a critical overview of a genre (e.g. Chinese poetry, Spanish Golden Age drama) or of a national literature (e.g. Hungarian, Scottish Gaelic). There is a selective bibliography for each entry and an index of authors and translators.

Weeping for Dido – Marjorie Curry Woods 2019-02-05

Saint Augustine famously "wept for Dido, who killed herself by the sword," and many later medieval schoolboys were taught to respond in similarly emotional ways to the pain of female characters in Virgil's Aeneid and other classical texts. In *Weeping for Dido*, Marjorie Curry Woods takes readers into the medieval classroom, where boys identified with Dido, where teachers turned an unfinished classical poem into a bildungsroman about young Achilles, and where students not only studied but performed classical works. Woods opens the classroom door by examining teachers' notes and marginal commentary in manuscripts of the Aeneid and two short verse narratives: the Achilleid of Statius and the Ilias latina, a Latin epitome of Homer's Iliad. She focuses on interlinear glosses—individual words and short phrases written above lines of text that elucidate grammar, syntax, and vocabulary, but that also indicate how students engaged with the feelings and motivations of characters. Interlinear and marginal glosses, which were the foundation of the medieval classroom study of classical literature, reveal that in learning the Aeneid, boys studied and empathized with the feelings of female characters; that the unfinished Achilleid was restructured into a complete narrative showing young Achilles mirroring his mentors, including his mother, Thetis; and that the Ilias latina offered boys a condensed version of the Iliad focusing on the deaths of young men. Manuscript evidence even indicates how specific passages could be

performed. The result is a groundbreaking study that provides a surprising new picture of medieval education and writes a new chapter in the reception history of classical literature.

Aphrodite and Venus in Myth and Mimesis - Nora Clark 2015-04-01

Aphrodite and Venus in Myth and Mimesis is a broad, flexible source book of comparative literature and cultural studies. It promotes the wide-ranging presence and impact of prominent idiosyncratic personalities in fabled goddess mythology and its emphatic notions of endearment and allure. The book brings together seven hundred acknowledged sources drawn from successive historical, global and literary eras, including principal commentaries, along with factual information and important renditions in art, prose and verse, within and beyond mainstream western culture. A lengthy, detailed introduction presents a copious documented preview of the viable adaptation and mimesis of 'divine' characterization and its respective centrality from the long distant past to the present day. Myth, rarely latent, demonstrates varied modes of expression and open-ended flexibility throughout the six comprehensive chapters which illuminate and probe, in turn, aspects of the ideological presence, sensibilities, trials and triumphs and interventions of the goddess, whether sacred or profane. Particular literary extracts and episodes range across ancient cultures alongside quite recent expressions of hermeneutics, blending myth with the contemporary in the multi-layered reception or admonishment of the goddess, whether by one designation or the other. As such, this book is wholly relevant to all stages of the evolution and expansion of a dynamic European literary culture and its leading authors and personalities.

Collaborative Translation and Multi-Version Texts in Early Modern Europe - Belén Bistué 2016-05-23

Focusing on team translation and the production of multilingual editions, and on the difficulties these techniques created for Renaissance translation theory, this book offers a study of textual practices that were widespread in medieval and Renaissance Europe but have been excluded from translation and literary history. The author shows how collaborative and multilingual translation practices challenge the theoretical reflections of translators, who persistently call for a translation text that offers a single, univocal version and maintains unity of style. In order to explore this tension, Bistué discusses multi-version texts, in both manuscript and print, from a diverse variety of genres: the Scriptures, astrological and astronomical treatises, herbals, goliardic poems, pamphlets, the Greek and Roman classics, humanist grammars, geography treatises, pedagogical dialogs, proverb collections, and romances. Her analyses pay careful attention to both European vernaculars and classical languages, including Arabic, which played a central role in the intense translation activity carried out in medieval Spain. Comparing actual translation texts and strategies with the forceful theoretical demands for unity that characterize the reflections of early modern translators, the author challenges some of the assumptions frequently made in translation and literary analysis. The book contributes to the understanding of early modern discourses and writing practices, including the emerging theoretical discourse on translation and the writing of narrative fiction--both of which, as Bistué shows, define themselves against the models of collaborative translation and multi-version texts.

Translation - Mildred L. Larson 1991-01-01

This book is a collection of articles which highlight the fact that good

translation theory is based on information gained from practice. At the same time, good practice is based on carefully worked-out theory. The two are interdependent. The authors who have contributed are persons who know the importance of both theory and practice and the tension between the two. They are not only translators but also have long experience in training others. The articles cover a wide variety of topics grouped in five sections. The first presents four graphic descriptions of what happens when one translates. The second looks at aspects of the application of theory from the backgrounds of European and Asian translation practices. The third has excellent articles which apply theory to the fields of poetry, opera, drama, and humor. The fourth section provides four ways of putting theory into practice. The fifth gives language specific examples and the last section deals with the application of theory and practice to teaching in an academic context.

Ripe for Revolution - Jeremy Friedman 2021-12-14

A historical account of ideology in the Global South as the postwar laboratory of socialism, its legacy following the Cold War, and the continuing influence of socialist ideas worldwide. In the first decades after World War II, many newly independent Asian and African countries and established Latin American states pursued a socialist development model. Jeremy Friedman traces the

socialist experiment over forty years through the experience of five countries: Indonesia, Chile, Tanzania, Angola, and Iran. These states sought paths to socialism without formal adherence to the Soviet bloc or the programs that Soviets, East Germans, Cubans, Chinese, and other outsiders tried to promote. Instead, they attempted to forge new models of socialist development through their own trial and error, together with the help of existing socialist countries, demonstrating the flexibility and adaptability of socialism. All five countries would become Cold War battlegrounds and regional models, as new policies in one shaped evolving conceptions of development in another. Lessons from the collapse of democracy in Indonesia were later applied in Chile, just as the challenge of political Islam in Indonesia informed the policies of the left in Iran. Efforts to build agrarian economies in West Africa influenced Tanzania's approach to socialism, which in turn influenced the trajectory of the Angolan model. *Ripe for Revolution* shows socialism as more adaptable and pragmatic than often supposed. When we view it through the prism of a Stalinist orthodoxy, we miss its real effects and legacies, both good and bad. To understand how socialism succeeds and fails, and to grasp its evolution and potential horizons, we must do more than read manifestos. We must attend to history.

The Oxford Handbook of Medieval Latin Literature - Ralph Hexter 2012-01-20

The twenty-eight essays in this Handbook represent the best of current thinking in the study of Latin language and literature in the Middle Ages. The insights offered by the collective of authors not only illuminate the field of medieval Latin literature but shed new light on broader questions of literary history, cultural interaction, world literature, and language in history and society. The contributors to this volume--a collection of both senior scholars and gifted young thinkers--vividly illustrate the field's complexities on a wide range of topics through carefully chosen examples and challenges to settled answers of the past. At the same time, they suggest future possibilities for the necessarily provisional and open-ended work essential to the pursuit of medieval Latin studies. While advanced specialists will find much here to engage and at times to provoke them, this handbook successfully orients non-specialists and students to this thriving field of study. The overall approach of *The Oxford Handbook of Medieval Latin Literature* makes this volume an essential resource for students of the ancient world interested in the prolonged after-life of the classical period's cultural complexes, for medieval historians, for scholars of other medieval literary traditions, and for all those interested in delving more deeply into the fascinating more-than-millennium that forms the bridge between the ancient Mediterranean world and what we consider modernity.
