*The Arts and Crafts of Literacy* - Andrea Brigaglia 2017-09-11

During the last two decades, the (re-)discovery of thousands of manuscripts in different regions of sub-Saharan Africa has questioned the long-standing approach of Africa as a continent only characterized by orality and legitimately assigned to the continent the status of a civilization of written literacy. However, most of the existing studies mainly aim at serving literary and historical purposes, and focus only on the textual dimension of the manuscripts. This book advances on the contrary a holistic approach to the study of these manuscripts and gather contributions on the different dimensions of the manuscript, i.e. the materials, the technologies, the practices and the communities involved in the production, commercialization, circulation, preservation and consumption. The originality of this book is found in its methodological approach as well as its comparative geographic focus, presenting studies on a continental scale, including regions formerly neglected by existing scholarship, provides a unique opportunity to expand our still scanty knowledge of the different manuscript cultures that the African continent has developed and that often can still be considered as living traditions.

**Midnight in Europe** - Alan Furst 2015-03-17

NEW YORK TIMES BESTSELLER Paris, 1938. As the shadow of war darkens Europe, democratic forces on the Continent struggle against fascism and communism, while in Spain the war has already begun. Alan Furst, whom Vince Flynn has called "the most talented espionage novelist of our generation," now gives us a taut, suspenseful, romantic, and richly rendered novel of spies and secret operatives in Paris and New York, in Warsaw and Odessa, on the eve of World War II. Cristián Ferrar, a brilliant and handsome Spanish émigré, is a lawyer in the Paris office of a prestigious international law firm. Ferrar is approached by the embassy of the Spanish Republic and asked to help a clandestine agency trying desperately to supply weapons to the Republic's beleaguered army—an effort that puts his life at risk in the battle against fascism. Joining Ferrar in this mission is a group of unlikely men and women: idealists and gangsters, arms traders and aristocrats and spies. From shady Paris nightclubs to white-shoe New York law firms, from brothels in Istanbul to the dockyards of Poland, Ferrar and his allies battle the secret agents of Hitler and Franco. And what allies they are: there's Max de Lyon, a former arms merchant now hunted by the Gestapo; the Marquesa Maria Cristina, a beautiful aristocrat with a taste for danger; and the Macedonian Stavros, who grew up "fighting Bulgarian bandits. After that, being a gangster was easy." Then there is Eileen Moore, the American woman Ferrar could never forget. In *Midnight in Europe*, Alan Furst paints a spellbinding portrait of a continent marching into a nightmare—and the heroes and heroines who fought back against the darkness. Praise for Alan Furst and *Midnight in Europe* "Furst never stops astounding me."—Tom Hanks "Furst is the best in the business."—Vince Flynn "Elegant, gripping . . . [Furst] remains at the top of his game."—The New York Times "Suspenseful and sophisticated . . . No espionage author, it seems, is better at summoning the shifting moods and emotional atmosphere of Europe before the start of World War II than Alan

Furst.”—The Wall Street Journal “Endlessly compelling . . . Furst delivers an observant, sexy, and thrilling tale set in the outskirts of World War II. In Furst’s hands, Paris once again comes alive with intrigue.”—Erik Larson “Too much fun to put down . . . [Furst is] a master of the atmospheric thriller.”—The Boston Globe

**How Marriage Became One of the Sacraments** - Philip L. Reynolds 2016-06-30

Among the contributions of the medieval church to western culture was the idea that marriage was one of the seven sacraments, which defined the role of married folk in the church. Although it had ancient roots, this new way of regarding marriage raised many problems, to which scholastic theologians applied all their ingenuity. By the late Middle Ages, the doctrine was fully established in Christian thought and practice but not yet as dogma. In the sixteenth century, with the entire Catholic teaching on marriage and celibacy and its associated law and jurisdiction under attack by the Protestant reformers, the Council of Trent defined the doctrine as a dogma of faith for the first time but made major changes to it. Rather than focusing on a particular aspect of intellectual and institutional developments, this book examines them in depth and in detail from their ancient precedents to the Council of Trent.

**The English Major** - Jim Harrison 2009-10-13

From the New York Times—bestselling author of Legends of the Fall: “Harrison spins the common chaff of a road trip into gold” (Tim McNulty, The Seattle Times). “It used to be Cliff and Vivian and now it isn’t.” With these words, Jim Harrison begins a riotous, moving novel that sends a sixty-something man, divorced and robbed of his farm by a late-blooming real estate shark of an ex-wife, on a road trip across America. Cliff is armed with a childhood puzzle of the United States and a mission to rename all the states and state birds, the latter of which have been unjustly saddled with white men’s banal monikers up until now. His adventures take him through a whirlwind affair with a former student from his high-school-teacher days twenty-some years before, to a “snake farm” in Arizona owned by an old classmate, and to the high-octane existence of his son, a big-time movie producer who has just bought an apartment over the Presidio in San Francisco. Jim Harrison’s riotous and moving cross-country novel, *The English Major*, is the map of a man’s journey into, and out of, himself. It is vintage Harrison—reflective, big-picture American, and replete with wicked wit. “*The English Major* is to midlife crisis what *The Catcher in the Rye* is to adolescence.” —Susan Salter Reynolds, Los Angeles Times

*Tommaso Campanella* - Germana Ernst 2010-03-16

A friend of Galileo and author of the renowned utopia *The City of the Sun*, Tommaso Campanella (Stilo, Calabria, 1568- Paris, 1639) is one of the most significant and original thinkers of the early modern period. His philosophical project centred upon the idea of reconciling Renaissance philosophy with a radical reform of science and society. He produced a complex and articulate synthesis of all fields of knowledge – including magic and astrology. During his early formative years as a Dominican friar, he manifested a restless impatience towards Aristotelian philosophy and its followers. As a reaction, he enthusiastically embraced Bernardino Telesio's view that knowledge could only be acquired through the observation of things themselves, investigated through the senses and based on a correct understanding of the link between words and objects. Campanella's new natural philosophy rested on the principle that the books written by men needed to be compared with God's infinite book of nature, allowing them to correct the mistakes scattered throughout the human 'copies' which were always imperfect, partial and liable to revisions. It is in the light of these principles that he defended Galileo's right to read the book of nature while denouncing the mistake of those – be they Aristotelian philosophers or theologians – who wanted to stop him from carrying on his natural investigations. However, Campanella maintained that the book of nature, far from being written in mathematical characters, was a living organism in which each natural being was endowed with life and a degree of sensibility that was appropriate for its preservation and propagation. Nature as a whole was an organism in which each single part was directed towards the common good. This is the reason why Campanella thought that nature had to be regarded as an ideal model for any political organisation. Political structures were often ruled by injustice and violence precisely because they had departed from that natural model. This book charts Campanella's intellectual life by showing the origin, development and persistence of some of the fundamental tenets of his thought.

*The Orient, the Liberal Movement, and the Eastern Crisis of 1839-41* - P. E. Caquet 2016-09-29

This book focuses on the Eastern Crisis of 1839-41, closely examining the first instance of coordinated Western intervention in the Middle East during the modern era. Readers can explore topics such as how culture, domestic politics, and ideology shaped diplomacy in this landmark crisis, and the importance role played by religion - including, alongside mainstream Christianity, the Protestant Zionist movement. Highly informative and fully researched, this book suggests that the Eastern Crisis - and its associated diplomatic and military efforts - marked the first of many modern-era attempts to "improve" the region by moulding it in a Western image, providing scholars with a new perspective on this period of history.

Painting Women - Patricia Phillippy 2020-03-03

This original analysis of the representation and self-representation of women in literature and visual arts revolves around multiple early modern senses of "painting": the creation of visual art in the form of paint on canvas and the use of cosmetics to paint women's bodies. Situating her study in sixteenth- and seventeenth-century Italy, France, and England, Patricia Phillippy brings together three distinct actors: women who paint themselves with cosmetics, women who paint on canvas, and women and men who paint women—either with pigment or with words. Phillippy asserts that early modern attitudes toward painting, cosmetics, and poetry emerge from and respond to a common cultural history. Materially, she connects those who created images of women with pigment to those who applied cosmetics to their own bodies through similar mediums, tools, techniques, and exposure to toxic materials. Discursively, she illuminates historical and social issues such as gender and morality with the nexus of painting, painted women, and women painters. Teasing out the intricate relationships between these activities as carried out by women and their visual and literary representation by women and by men, Phillippy aims to reveal the delineation and transgression of women's creative roles, both artistic and biological. In *Painting Women*, Phillippy provides a cross-disciplinary study of women as objects and agents of painting.
