Finding the Courage to Lead - James M. Kouzes 2013-08-13

Leadership doesn't happen without courage. In fact, leadership might be defined as "courage in action." But the truth is that courage is poorly understood and not what you typically think. In their second original short format work, *Finding the Courage to Lead*, James Kouzes and Barry Posner offer a perspective on what ordinary leaders say about what courage is to them, and what their courageous experiences mean for the daily practice of leadership. Courage is one of those big, bold words. It has the reputation of being something way out there on the edges of human experience, commonly associated with superhuman feats, life-and-death struggles, and overcoming impossible odds. It gives rise to images of daring feats of bravery and nerves of steel. It has such a mystique about it that many think the concept doesn't apply to them. But, when you look beyond the headlines, you find out that this account of courage is certainly not the whole story. There is very little relevant discussion of courage in the leadership literature. For all the talk about how leaders need to be courageous, there is next to nothing written about what it really means for leadership. Grounded in award-winning original research and rich with insight, *Finding the Courage to Lead* is valuable for leaders at any level to understand how courage shapes our leadership potential on and off the job, and is required reading for any fans of Kouzes & Posner's work.

Key takeaways from the book include: **Believe in Yourself.** Believing in oneself is the essential first step in developing leadership competencies. The best leaders are learners, and they can't achieve mastery until and unless they truly decide that inside them there is a person who can make a difference and learn to be a better leader than they are right now. **Aspire to Excel.** To become an exemplary leader, people must determine what they care most about and why they want to lead. Leaders with values-based motivations are the most likely to excel. They also must have a clear image of the kind of leader they want to be in the future—and the legacy they want to leave for others. **Challenge Yourself.** Challenging oneself is critical to learning leadership. Leaders must seek new experiences and test themselves. There will be inevitable setbacks and failures along the way that require curiosity, grit, courage, and resilience to persist in learning and becoming the best. **Engage Support.** One can't lead alone, and one can't learn alone. It is essential to get support and coaching on the path to achieving excellence. Whether it's family, managers at work, or professional coaches, leaders need the advice, feedback, care, and support of others. **Practice Deliberately.** No one gets better at anything without continuous practice. Exemplary leaders spend more time practicing than ordinary leaders. Simply being in the role of a leader is insufficient. To achieve mastery, leaders must set improvement goals, participate in designed learning experiences, ask for feedback, and get coaching. They also put in the time every day and make learning leadership a daily habit. Kouzes and Posner offer unrivaled insights into what it means to become an exemplary leader in today's world with their original research and over 30 years of experience studying the practices of extraordinary leadership. They show that anyone can become a better leader if they believe in themselves, aspire to excel, challenge themselves to grow, engage the support of others, and practice deliberately. *Learning Leadership* challenges readers to do the meaningful and disciplined work necessary to becoming the best they can, using a new mindset and toolkit that can make extraordinary things happen. It's not the once-in-a-while transformational acts that demonstrate leadership. It's the little things that one does day in and day out that pave the path to greatness.
