The Power of Alignment - George Labovitz 1997-06-02

Misaligned companies, like cars out of alignment, can develop serious problems if not corrected quickly. They are hard to steer and don't respond well to changes in direction. This groundbreaking book shows you how to get -and keep -all the vital elements of your organization aligned and headed in the same direction at the same time. Managers must now keep their people centered in the midst of change, deemphasize hierarchy, and distribute leadership by distributing authority, information, knowledge, and customer data throughout their organization. Alignment is a response to the new business reality where customer requirements are in flux, where competitive forces are turbulent, and where the bond of loyalty between an organization and its people has been weakened. The old linear approach to management has given way to one of simultaneity -to alignment. As pioneers of the alignment concept, the authors have developed this unique approach based on their work with leading companies throughout the world. The Power of Alignment is packed with war stories and the firsthand perspectives of industry leaders. You'll learn how world-class organizations, including Federal Express, the Jet Propulsion Laboratory, Columbia/HCA Healthcare, Citizens Utilities, AirTouch, and UNUM achieved extraordinary business results. Now, through the authors' expertise, you'll see how alignment can work for your organization. In essence, alignment links the five key elements of an organization -people, process, customers, business strategies, and, of course, leadership -to obtain breakthrough results, chief among them, sustained growth and profit, loyal customers, and a high-performing work force. The Power of Alignment: * Offers a clear framework for aligning and linking the crucial elements that build and sustain a company's success * Provides self-assessment tools as well as benchmarking measures for evaluating an organization's critical competencies * Enables managers to create a work force where each employee can relate his or her activities to the goals and strategic objectives of the company * Helps a company determine when and where it is out of alignment, and gives descriptions of such common company pathologies as "The Phantom Limb Syndrome," "Strategy Interruptus," and "Dead

Man Walking" * Prescribes specific steps for getting an organization back on track toward a single, shared vision of its goals Essential reading for all managers and executives, *The Power of Alignment* offers a new way to reestablish focus and sustained energy, and is a dynamic approach for staying balanced and achieving extraordinary levels of performance. "This book is savvy, detailed, timely, and clearly written. I highly recommend it for any leader facing the challenges posed by global business today." - Dana Mead Chairman and CEO, Tenneco Former Chairman National Association of Manufacturers "It's not only the stars that have to be in alignment to reach your destination, it's all the internal processes, rewards, and drivers. Read *The Power of Alignment*, and while you may not unlock the secrets of the universe, you will overcome the barriers to corporate success." - William L. Boyan President and COO John Hancock Mutual Life Insurance Company. "This important book goes beyond TQM and reengineering by creating a new approach called Alignment. The authors show that great companies manage to link strategy and people and integrate customer needs with continuous improvement processes." - Peter Augustsson President and Group Chief Executive AB SKF. "The Power of Alignment gets to the heart of a critical element of organizational leadership, namely focus. Every leader who reads it will undoubtedly do some serious soul-searching about the consistency of corporate vision, goals, management systems, and incentive mechanisms." - Louis E. Lataif Dean Boston University School of Management.

Teddy the Terrible - Christian Jolibois 2017

"A young orphan bear is a bully to everyone until he meets a bear that is much bigger than he. When she learns that he is an orphan, she decides to give him something that he's never had before ... love."--
How to Bullet Plan - Rachel Wilkerson Miller 2017-09-21

So what is a bullet journal? It's a planner, to-do list and diary that will help you get your life together! This fun, practical guide shows you how to start and keep a bullet journal: a single notebook in which you write down all the things that you want to remember, or need to do, or you've already done - from every aspect of your life: work, home, relationships and hobbies. Index for Inclusion - Tony Booth 2011

The Problem with Pleasure - Laura Frost 2013-07-16

A revealing study of the sensual tensions powering the period's formal and ideological innovations. *La Città Altra. Storia E Immagine Della Diversità Urbana: Luoghi E Paesaggi Dei Privilegi E Del Benessere, Dell'isolamento, Del Disagio, Della Multiculturalità. Ediz. Italiana E Inglese* - Francesca Capano 2018-10

This volume proposes a rich corpus of papers about the 'Other City', a subject only few times dealt with, but worthy of all our attention: it imposes itself on the scene of international modern and contemporary historiography for its undeniable topicality. Throughout history, the city has always had to deal with social 'otherness', i.e. with class privileges and, consequently, with discrimination and marginalization of minorities, of the less well-off, of foreigners, in short, with the differences in status, culture, religion. So that the urban fabric has ended up structuring itself also in function of those inequalities, as well as of the strategic places for the exercise of power, of the political, military or social control, of the spaces for imprisonment, for the sanitary isolation or for the 'temporary' remedy to the catastrophes. From the first portraits of cities, made and diffused at the beginning of the fifteenth century for political

exaltation purposes or for religious propaganda and for devotional purposes, which often, through increasingly refined graphic techniques, distort or even deny the true urban image, we reach, at the dawn of contemporary history, the new meaning given by scientific topography and new methods of representation; these latter aimed at revealing the structure and the urban landscape in their objectivity, often unexpected for who had known the city through the filter of 'regime' iconography. The representation of the urban image still shows the contradictions of a community that sometimes includes and even exalts the diversities, other times rejects them, showing the unease of a difficult integration.

In a strange land where people must buy and swallow the words they wish to speak, Phileas hopes to communicate his love to Cybele using the small vocabulary he has been able to afford.

Mountain Landscapes - Massimo Sargolini 2015-04

According with the Alps and Carpathian Conventions, the European Landscape Convention, and the Birds, and Habitats Directives the research project "Access2Mountain", illustrated in this book, aims to promote the improvement of the accessibility in mountain areas, as a crucial factor for their social, economic and cultural sustainable development, with particular regard for tourism. In the meanwhile, it aims to enlight methods, models and tools for the containment and the reduction of negative impacts of traffic, infrastructures and tourist flows on the environment, landscape and natural-cultural heritage, particularly in the most sensitive areas of South-East Europe. The landscape vision becomes the way to approach the analysis, interpretation and design. It requires a trans-scale dimension, moving from the local level, to the environmental component, the interested context and the model region. The final output is a "system of thinking" for the decision making processes in sensitive mountain landscapes.

Making Cities Resilient - Vishwa Raj Sharma 2019-02-08

As the world has transformed, so have cities. Today, cities are home to 54 percent of the world's population, and by the middle of this century that figure will likely rise to 66 percent. According to the United Nations (UN) Habitat I (1972), Habitat II (1996) and Habitat III (2016) summits, cities are facing many serious challenges, including growing inequality, security concerns and the worsening impacts of climate change. Uncontrolled urbanization has led to many problems (haphazard growth of areas, emergence of slums, inadequate water and power supply, poor sanitation, shortage of transport and other civic amenities, shrinking green spaces, pollution, crime, and urban disaster risks such as fire, flood, road and industrial accidents, etc.). Worldwide, communities at the international, national and local level are continuously working to improve human habitats. In order to make our planet more sustainable, the UN has moved from the Millennium Development Goals (MDG) to the Sustainable Development Goals (SDG). Among the latter, the aim of SDG 11 is to "...make cities and human settlements inclusive, safe, resilient and sustainable." In light of these challenges, various terms have emerged to help understand urban issues. Visualizing the problem, the United Nations program "Making Cities Resilient" is focused on mitigating the disaster risk in urban areas. This book analyzes terms such as: sustainable, resilient, livable, inclusive, smart and world class city, which have emerged in the process of combating urban challenges in today's world. The book addresses emerging concepts for cities, challenges and potentials, urban environments, health and planning/policies. Covering 14 large cities in India, as well as case studies from Japan, Singapore, Thailand, Malaysia, Poland and Sweden, it provides a regional dimension to and micro-level perspective on urban issues.

Farmaci oppioidi e Cannabis nella terapia del dolore - Ettore Novellino 2018-02-05

"Farmaci oppioidi e Cannabis nella terapia del dolore" rappresenta il frutto di alcuni studi, condotti per

almeno tre lustri nel Dipartimento di Farmacia e nel Centro Interdipartimentale di Ricerca in Farmacoeconomia e Farmacoutilizzazione (CIRFF) della Federico II, e si rivolge sia a chi presta servizio ogni giorno in una farmacia, sia a chi, studioso, docente o studente, è interessato ad approfondire l'argomento. Il testo, utilizzando un approccio interdisciplinare, si muove su piani euristici differenti. Naturalmente, ampio spazio è stato dedicato alla parte farmaceutica, analizzando tutti gli aspetti chimici e farmacologici connessi a questo tema. Un secondo punto di rilievo riguarda la problematica normativa legata alla dibattuta questione dell'utilizzo in terapia degli oppioidi e della Cannabis. In tal senso, si è cercato di offrire una prospettiva chiara ed esauriente del complesso quadro legislativo vigente: a partire dalle prime leggi promulgate dal Regno d'Italia, fino ad arrivare alle ultime circolari ministeriali in materia, è stata rivista ed esaminata l'intera normativa sulle sostanze stupefacenti, spiegandone anche i passaggi più delicati e controversi. Infine, soprattutto per ciò che concerne le ricadute sulla terapia del dolore, una parte significativa del libro si è concentrata sull'interpretazione medica e terapeutica, dove i farmaci oppioidi e la Cannabis costituiscono non solo una feconda frontiera di ricerca, ma anche un consolidato ed efficace strumento per contrastare alcune tipologie di dolore.

Blown Covers - Françoise Mouly 2012-07-01

DIVFrançoise Mouly takes us behind the scenes at the New Yorker and reveals how the magazine creates its signature covers commenting on the most urgent political and cultural events of the day. She shows the shocking and hilarious sketches that didn't make the cut and explains how these are essential stages in the evolution of a cover that stands the test of time but retains its edge. Her book captures contemporary history—from the farce of Monica Lewinsky to the adventures of Michelle and Barack to nuclear meltdown in Japan—in images that are as acute as they are outrageous. More than that, it shows how the magazine that exemplifies journalistic excellence in America also dares to cultivate a sense of humor when grappling with complex moral and political issues. Praise for Blown Covers:

“Interesting failures are the driving force behind *BLOWN COVERS: New Yorker Covers You Were Never Meant to See* (Abrams, \$24.95), by Françoise Mouly. Mouly is the art editor of *The New Yorker*, and paging through this book is like standing in the corner of her office as she pins up rejected covers on the wall. Mouly has dozens of tales about images that failed for one reason or another. Now, presumably with the approval of her bosses at Condé Nast, she has created a tell-all (or tell-most) that even non-illustrators and designers will find enlightening.” —New York Times Book Review “Yes, *Blown Covers* sometimes offends—and that’s the audacious joy of it.” —NPR.org “[New Yorker] art editor Mouly offers some true delights.” —Sacramento Bee /div

Altamont 1969 - 2019

Altamont 1969 by Bill Owens presents a new and unpublished series of work, black and white photographs documenting the unique moment of the first large Rolling Stones concert at Raceway Altamont in California. This was the period of protest movements in San Francisco. Bill Owens captured the young generation's desire to stand up and raise their voice against the war in Vietnam, against segregation and racial discrimination, and against authority in general. Slogans and billboards, sit-ins and demonstrations are evidence of the cultural agitation of those years. Together with the Stones, other major rock bands appeared on stage, including Grace Slick, Jefferson Airplane, Carlos Santana and many others, while the Hells Angels were employed as security. Bill Owens has always been involved in socio-anthropological aspects of American culture and in the rise of the collective movement of protest and criticism against the misuse of power. Here, he uses photography as a kind of 'visual anthropologist', painting a fresco' of the cultural revolution that marked the entire world during the 1960s.

Cultural Ergonomics - Tonya L. Smith-Jackson 2013-12-10

Even when products and systems are highly localized, rarely is there one design suitable for a single, mono-cultural population of users. The products and systems created and used are cultural artifacts representing shared cognitions that characterize mental models that result from interactions with physical environments. Thus, culture is embedded and impacts the extent to which products are usable, accessible, useful, and safe. Products and systems that deviate from users’ mental models may have negative consequences for users, ranging from minor annoyance to more serious consequences such as severe injury or death. Both an introduction and a primer, *Cultural Ergonomics: Theory, Methods, and Applications* demonstrates how cultural ergonomics can be applied in research and practitioner contexts. It covers selection of theories, descriptions of research designs, methods to analyze the results, case studies, and strategies used to draw inferences and conclusions in a vast array of areas including occupational safety, global issues, emergency management, human-computer interaction, warnings and risk communications, and product design. Human factors/ergonomics, as a discipline, is slowly integrating cultural ergonomics into efforts to explore human capabilities and limitations in the

context of design and evaluation. Edited by experts and containing contributions from pioneers in this area, this book provides examples and methodologies within a human factors framework. It provides systematic methods to apply what is learned from analysis of culture to the design, development, and evaluation of products and systems.

Vigilanza sulle Farmacie. Il verbale d'ispezione nella legislazione nazionale e regionale - Giuseppe Guaglianone 2018-09-24

«..un volume che può essere sintetizzato (e davvero non mi è riuscito di trovare modo più efficace per farlo) parafrasando il celeberrimo titolo di un vecchio film di Woody Allen: “Tutto quello che avreste voluto sapere sulla vigilanza (e le ispezioni) sulle farmacie e non avete mai osato chiedere” ». “Il libro – per completezza e struttura espositiva – finisce in realtà per assumere anche la sostanza, se non proprio la forma, di un impagabile vademecum nel quale, al bisogno, ogni professionista potrà trovare il chiarimento di ogni dubbio o domanda relativi al “cosa si fa e come” nell’espletamento quotidiano della propria attività”. (Dall’introduzione al volume di Emilio Croce) L’attività di vigilanza sulle farmacie aperte al pubblico è uno degli aspetti esterni, che fanno da corollario alla struttura farmacia, ma che della professione relativa inglobano la veste e ne dirigono le funzioni ed il ruolo organizzativo. Rappresenta, in tal senso, una presa d’atto del percorso normativo, verifica di una dirittura secondo i binari della correttezza e della moralità nell’operato, focalizzando l’attenzione nel procedere del passo e inculcando negli amministratori del sistema il senso di adesione deontologica a criteri coscienziosamente delineati. L’attività di vigilanza diventa, da una parte, collaborazione a fianco del farmacista, di cui osserva il normale svolgimento lavorativo, con rilievi ed appunti sui relativi dettagli e compiti, via via nel tempo sempre più dendritici, d’altra parte, si mostra costrittrice, laddove necessario, nei casi, cioè, di estrema discordanza o sconfinamento dalla giusta operatività con possibile lesività dell’integrità altrui. Questo elaborato vuole esporre dei principi guida, delineati nel modello di verbale di ispezione alle farmacie adottato nella Regione Lazio, espressione dell’immagine lineare del contenuto sia operativo che comportamentale del farmacista. Si invoca, nel contempo, che tali dettami possano essere univoci in tutto il territorio, al momento frammentari e disomogenei.

[Decent Incomes for All](#) - Bea Cantillon 2018-11-20

In 2000, the first social agenda in the history of the European Union was launched, and the endeavor to combat poverty came increasingly to the forefront as a specific area for EU policy cooperation and coordination. Regrettably, however, little progress has been achieved so far, either at the national or European level. On the contrary, the EU's social fabric is under major stress: convergence in national living standards has halted or reversed while progress in terms of poverty reduction in the last decades has been disappointing in most EU Member States. In Europe, despite high social spending and work-related welfare reforms, poverty often remains a largely intractable problem for policymakers and a

persistent reality for many European citizens. In *Decent Incomes for All*, the authors shed new light on recent poverty trends in the European Union and the corresponding responses by European welfare states. They analyze the effect of social and fiscal policies before, during, and after the recent economic crisis and study the impact of alternative policy packages on poverty and inequality. The volume also explores how social investment and local initiatives of social innovation can contribute to tackling poverty, while recognizing that there are indeed structural constraints on the increase of the social floor and difficult trade-offs involved in reconciling work and poverty reduction. Academics and graduate students in comparative social policy, inclusion and anti-poverty policy, sociology, and public economics will find the book to be a particularly helpful resource in their work.

Cycling & Walking for Regional Development - Paolo Pileri 2020-08-28

This book investigates why and how cycle and walking paths can help to promote the regeneration of marginalized areas facing depopulation and economic decline. In addition, it offers a broad overview of recent scientific research into slow tourism and marginality/spatial inequality and explores the linkages between these topics. Key issues are addressed by experts from various disciplinary backgrounds, and potential measures are proposed for the integration of slow tourism into strategies for regional development. Particular attention is devoted to the VENTO project, which involves the creation of a 700-km-long cycle route from Venice to Turin that passes through various rural and marginalized areas of northern Italy. The goal, research process, design, and early lessons from this important project are all discussed in detail. Moreover, the book describes policies and strategies that have successfully been used to enhance the slow tourism infrastructure in other European countries. Given its scope, the book will appeal to researchers, professionals, and students interested in e.g. policymaking, tourism planning, regional development, and landscape and urban planning.

Care for Child Development - Organisation mondiale de la santé 2012-05

Early childhood development (ECD)--including the sensori-motor, social /emotional and language / cognitive capacities--is indivisible from the child survival, health and education agendas and represents one of the important stages for breaking the intergenerational cycles of poverty and for promoting sustainable development. Development during the early years lays the critical foundations for health, learning and behavior across the life course. Poor development during childhood, unfortunately, is widespread. Globally over 200 million children do not reach their developmental potential in the first 5 years because they live in poverty, and have poor health services, nutrition and psycho-social care.

These disadvantaged children do poorly in school and subsequently have low incomes, high fertility, high criminality, and provide poor care for their own children. As a result, their countries suffer an estimated 20 per cent loss in adult productivity. Investment in early childhood programs is essential because ECD programs and interventions can provide a "fair start" to children and help to modify distressing socio-economic and gender-related inequities. There is strong evidence regarding interventions that can address the causal factors and reduce the burden of poor child development. This package aims to help a variety of health and community workers to provide age-appropriate guidance to caregivers of young children for stimulating cognitive, language and social-emotional development through play and communication. This guidance is designed to benefit those children and families who need it most. It has been shown to be effective in improving responsive care. Implemented on a wide-scale, Care for Child Development will have significant public health and social benefits. The Care for Child Development package consists of: * Simple recommendations health workers can make to families to improve the development of children. * Training materials for health workers and community providers. * Support for families to solve common problems in providing good care for young children. * Advocacy materials. * A monitoring and evaluation framework.

Intercultural Competence in Higher Education - Darla K. Deardorff 2017-07-20

Intercultural Competence in Higher Education features the work of scholars and international education practitioners in understanding the learning outcomes of internationalization, moving beyond rhetoric to concrete practice around the world. Devoted exclusively to exploring the central learning outcomes of internationalization efforts, this edited volume contains a refreshing combination of chapters and case studies from interdisciplinary and cross-cultural contributors, including: cutting-edge issues within intercultural competence development, such as intersectionality, mapping intercultural competence, and assessment; the role of higher education in developing intercultural competence for peacebuilding in the aftermath of violent conflict; facilitating intercultural competence through international student internships; interdisciplinary and cross-cultural contributions from over 19 countries including Japan, Russia, Serbia, South Africa, and Vietnam; the latest research and thinking on global, intercultural, and international learning outcomes, with a unique emphasis on newer voices. Intercultural competence has become an essential element in international as well as domestic education. This text provides the latest thinking and research within the context of internationalization, presents practical case studies on how to integrate this into the preparation of global-ready students and will be of interest to postgraduate students, international education administrators, and practitioners, as well as scholars and researchers in a variety of disciplines who have an interest in intercultural and global competence.

Magnum's First - Andrea Holzherr 2017

Magnum Photos, founded in 1947 by Henri Cartier-Bresson, Robert Capa, Georges Rodger, David 'Chim' Seymour, and Bill Vandivert, is one of the most famous photography agencies in the world. Until recently, an exhibition curated by L. Fritz Gruber for the 1956 photokina in Cologne was considered the earliest Magnum group show. However, more than 50 years later, an even earlier exhibition has been rediscovered. This is the first publication in Italy to provide a complete documentation of this exhibition. A total of eighty-three vintage prints by eight Magnum photographers? Werner Bischof, Henri Cartier-Bresson, Robert Capa, Ernst Haas, Erich Lessing, Jean Marquis, Inge Morath, and Marc Riboud? are featured in large-format reproductions. The exhibition's main theme was?photographic humanism?: people and their everyday surroundings, photographed without any kind of sensationalism by committed photojournalists, who believed in educating and bettering the world through their authentic documents.00Exhibition: Museo di Santa Giulia, Brescia, Italy (07.03. - 03.09.2017).

Digital Heritage. Progress in Cultural Heritage: Documentation, Preservation, and Protection

- Marinos Ioannides 2021-04-13

This book constitutes the refereed post-conference proceedings of the 8th International Conference on Digital Heritage, EuroMed 2020, held virtually in November 2020. The 37 revised project papers and 30 revised short papers presented were carefully reviewed and selected from 326 submissions. The papers are on topics such as digital data acquisition technologies in CH/2D and 3D data capture methodologies and data processing; remote sensing for archaeology and cultural heritage management and monitoring; interactive environments and applications; reproduction techniques and rapid prototyping in CH; e-Libraries and e-Archives in cultural heritage; virtual museum applications (e-Museums and e-Exhibitions); visualisation techniques (desktop, virtual and augmented reality); storytelling and authoring tools; tools for education; 2D and 3D GIS in cultural heritage; and on-site and remotely sensed data collection.
