Measuring and Managing Information Risk - Jack Freund 2014-08-23

Using the factor analysis of information risk (FAIR) methodology developed over ten years and adopted by corporations worldwide, Measuring and Managing Information Risk provides a proven and credible framework for understanding, measuring, and analyzing information risk of any size or complexity. Intended for organizations that need to either build a risk management program from the ground up or strengthen an existing one, this book provides a unique and fresh perspective on how to do a basic quantitative risk analysis. Covering such key areas as risk theory, risk calculation, scenario modeling, and communicating risk within the organization, Measuring and Managing Information Risk helps managers make better business decisions by understanding their organizational risk. Uses factor analysis of information risk (FAIR) as a methodology for measuring and managing risk in any organization. Carefully balances theory with practical applicability and relevant stories of successful implementation. Includes examples from a wide variety of businesses and situations presented in an accessible writing style.

Twelve Years a Slave - Solomon Northup 2021-01-01

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Assessing Trauma in Forensic Contexts - Rafael Art. Javier 2020-02-29

This book examines the different ways that trauma is involved in the lives of those who interact with the justice system, and how trauma can be exacerbated in legal settings. It includes both victims and perpetrators in providing a perspective on trauma in general, and a framework that will guide those who evaluate and treat individuals in forensic settings. Comprehensive in scope, it covers key areas such as developmental issues, emotions, linguistic and communication difficulties, and special populations such as veterans, immigrants, abused women, incarcerated individuals, and children. The main objective of this book is to bring trauma to the fore in conducting forensic evaluations in order to understand these cases in greater depth and to provide appropriate interventions for a range of problems. "This masterful book, edited by Rafael Art. Javier, Elizabeth Owen and Jemour A. Maddux, is a refreshing, original, and

thoughtful response to these needs, demonstrating – beyond any doubt – why lawyers and forensic mental health professionals must be trauma-informed in all of their relevant work.” –Michael L. Perlin, Esq., New York Law School

The Ancients and the Postmoderns - Fredric Jameson 2015-05-19

Fredric Jameson sweeps from the Renaissance to The Wire High modernism is now as far from us as antiquity was for the Renaissance. Such is the premise of Fredric Jameson’s major new work in which modernist works, this time in painting (Rubens) and music (Wagner and Mahler), are pitted against late-modernist ones (in film) as well as a variety of postmodern experiments (from SF to The Wire, from “Eurotrash” in opera to Altman and East German literature): all of which attempt, in their different ways, to invent new forms to grasp a specific social totality. Throughout the historical periods, argues Jameson, the question of narrative persists through its multiple formal changes and metamorphoses.

The Art of Invention - Steven J. Paley 2011-03

The lowly paperclip attracts little attention in our world of advanced gadgets and increasingly sophisticated technology. But to veteran inventor and design engineer Steven J. Paley, it is a prime example of the qualities that often characterize a great invention—simplicity, elegance, and robustness—and it provided a lasting solution to a common problem. In this entertaining and insightful exploration of the process of invention, Paley shows why these same three qualities are essential not only to the success of simple devices, but equally to complex inventions from computer chips to nuclear power plants. Whether you're an aspiring inventor or an experienced designer, Paley's expertise, personal examples, and case studies offer detailed guidance on conceptualizing your ideas and turning them into reality. Paley begins by exploring the essential aspects of creative thinking, from identifying a problem or need, which is often hidden in plain sight, to finding an inspired solution. He shows how ideas can come from a variety of sources such as the natural world, basic physical principles, life experience, or even chance observations. He examines how intuition and the harnessing of subconscious information are key ingredients for the inventive process. Next, Paley focuses on the three fundamental themes of simplicity, elegance, and robustness. He vividly and persuasively illustrates through many examples how great inventions embody these crucial characteristics. The author concludes with an in-depth look at the business of invention and the typical inventor's toolkit. He addresses the real-world challenges of turning a good idea into a practical, marketable application, including patents, marketing, and entrepreneurship. He is candid about the realities of hard work and the need to learn from the inevitable mistakes along the way. Full of insights and practical guidance from a successful inventor and entrepreneur, *The Art of Invention* will open new avenues of creativity for budding and accomplished inventors alike. Steven J. Paley (Paramus, NJ) holds nine US patents and numerous international patents. He is the founder of Arise Technologies, Inc., which teaches robotics and engineering to special needs and gifted children. From 1985 to 2001, he was the CEO and Chief Technical Officer of the Texwipe Company, which manufactured and sold specialized consumable products for the control of microcontamination in semiconductor fabrication, disk drive manufacture, biotechnology, and aerospace.

A Carpenter's Life as Told by Houses - Larry Haun 2011

"From one of Fine Homebuilding's best-loved authors, Larry Haun, comes a unique story that looks at American home building from the perspective of twelve houses he has known intimately. Part memoir, part cultural history, *A Carpenter's Life as Told by Houses* takes the reader house by house over an arc of 100 years. Along with period photos, the author shows us the sod house in Nebraska where his mother was born, the frame house of his childhood, the production houses he built in the San Fernando Valley, and the Habitat for Humanity homes he devotes his time to now. It's an engaging read written by a veteran builder with a thoughtful awareness of what was intrinsic to home building in the past and the many ways it has evolved. Builders and history lovers will appreciate his deep connection to the natural

world, yearning for simplicity, respect for humanity, and evocative notion of what we mean by "home."--

Proving Damages to the Jury - Jim Wren 2015-08-26

Built on a solid foundation of current scientific research and more than 30 years of in-the-trenches trial experience, this 800-page masterwork will help you understand juror biases and motivations, develop persuasive evidence of damages, and talk to jurors in a way that triggers the jurors' natural desire to do what is right and significant by awarding damages to your client.

Pre-Incident Indicators of Terrorist Incidents - Brent L. Smith 2011-01

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents.

The Deeper the Roots - Michael Tubbs 2021-11-16

"Insightful, emotional, and enraging. By sharing his story in gripping detail, Michael Tubbs embodies an old feminist tradition whereby the personal is political. He empowers us to fight for equal opportunities for our communities, and encourages us to amass the courage to overcome loss and injustice." —Ibram X. Kendi, National Book Award-winning author of *Stamped from the Beginning* and *How to Be an Antiracist* The making of a visionary political leader—and a blueprint for a more equitable country "Don't tell nobody our business," Michael Tubbs's mother often told him growing up. For Michael, that meant a lot of things: don't tell anyone about the day-to-day struggle of being Black and broke in Stockton, CA. Don't tell anyone the pain of having a father incarcerated for 25 years to life. Don't tell anyone about living two lives, the brainy bookworm and the kid with the newest Jordans. And also don't tell anyone about the particular joys of growing up with three "moms"—a Nana who never let him miss church, an Auntie who'd take him to the library any time, and a mother, "She-Daddy", who schooled him in the wisdom of hip-hop and taught him never to take no for an answer. So for a long time Michael didn't tell anyone his story, but as he went on to a scholarship at Stanford and an internship in the Obama White

House, he began to realize the power of his experience, the need for his perspective in the halls of power. By the time he returned to Stockton to become, in 2016 at age 26, its first Black mayor and the youngest-ever mayor of a major American city, he knew his story meant something. *The Deeper the Roots* is a memoir astonishing in its candor, voice, and clarity of vision. Tubbs shares with us the city that raised him, his family of badass women, his life-changing encounters with Oprah Winfrey and Barack Obama, the challenges of governing in the 21st century and everything in between—en route to unveiling his compelling vision for America rooted in his experiences in his hometown.

Punk 57 - Penelope Douglas 2016-10-18

In fifth grade, my teacher set us up with pen pals from a different school. Thinking I was a girl, with a name like Misha, the other teacher paired me up with her student, Ryen. My teacher, believing Ryen was

a boy like me, agreed. It didn't take long for us to figure out the mistake. And in no time at all, we were arguing about everything

Here We Lie - Paula Treick DeBoard 2018-02-01

"A complex look at the long-standing consequences of privilege and toxic masculinity.... Compulsively readable!" —Kate Moretti, New York Times bestselling author of *The Vanishing Year* "This story particularly resonates now, in the throes of the #MeToo movement."—Booklist Megan Mazeros and Lauren Mabrey are complete opposites on paper. Megan is a girl from a modest Midwest background, and Lauren is the daughter of a senator from an esteemed New England family. When they become roommates at a private women's college, they forge a strong, albeit unlikely, friendship, sharing clothes, advice and their most intimate secrets. The summer before senior year, Megan joins Lauren and her family on their private island off the coast of Maine. It should be a summer of relaxation, a last hurrah before graduation and the pressures of postcollege life. Then late one night, something unspeakable happens, searing through the framework of their friendship and tearing them apart. Many years later, Megan publicly comes forward about what happened that fateful night, revealing a horrible truth and threatening to expose long-buried secrets. In this captivating and timely novel, Paula Treick DeBoard explores the blurred lines of consent and misconduct, showing how the abuse of power can lead to devastating consequences.

Secrets of Feeding a Healthy Family - Ellyn Satter 2011-12-01

Ellyn Satter's *Secrets of Feeding a Healthy Family* takes a leadership role in the grassroots movement back to the family table. More a cooking primer than a cookbook, this book encourages singles, couples, and families with children to go to the trouble of feeding themselves well. Satter uses simple, delicious recipes as a scaffolding on which to hang cooking lessons, fast tips, night-before suggestions, in-depth background information, ways to involve kids in the kitchen, and guidelines on adapting menus for young children. In chapters about eating, feeding, choosing food, cooking, planning, and shopping, the author entertainingly helps readers have fun with food while not eating unhealthily or too often. She cites current studies and makes a convincing case for lightening up on fat and sodium without endangering ourselves or our children. The book demonstrates Satter's dictum that "your positive feelings about food and eating will do more for your health than adhering to a set of rules about what to eat and what not to eat."

The Green Bay Area in History and Legend - Jack Rudolph 2004

Creating a Movement with Teeth - Daniel Burton-Rose 2010

This panoramic overview chronicles the activities of the George Jackson Brigade, a radical, 1970s, multiracial and sexually diverse organization?veterans', women's, gay, and black liberation movements. The Brigade embraced bank robberies and armed insurrection to wage war against what they felt was an unjust government. Through a wide array of surveillance reports, feature articles from mainstream and alternative presses, and the organization's prolific, spontaneous communications and substitutive political statements, this collection reveals this body of propaganda and meditations on praxis.

The Thing Around Your Neck - Chimamanda Ngozi Adichie 2010-06-01

These twelve dazzling stories from Chimamanda Ngozi Adichie — the Orange Broadband Prize-winning author of *Half of a Yellow Sun* — are her most intimate works to date. In these stories Adichie turns her penetrating eye to the ties that bind men and women, parents and children, Nigeria and the United States. In "A Private Experience," a medical student hides from a violent riot with a poor Muslim woman, and the young mother at the centre of "Imitation" finds her comfortable life in Philadelphia threatened when she learns that her husband has moved his mistress into their Lagos home. Searing and profound, suffused with beauty, sorrow and longing, this collection is a resounding confirmation of Adichie's prodigious literary powers.

[Steal This Book](#) - Abbie Hoffman 2002-02-25

A handbook of survival and warfare for the citizens of Woodstock Nation A classic of counterculture

literature and one of the most influential--and controversial--documents of the twentieth century, *Steal This Book* is as valuable today as the day it was published. It has been in print continuously for more than four decades, and it has educated and inspired countless thousands of young activists. Conceived as an instruction manual for radical social change, *Steal This Book* is divided into three sections--Survive! Fight! and Liberate! Ever wonder how to start a guerilla radio station? Or maybe you want to brush up on your shoplifting techniques. Perhaps you're just looking for the best free entertainment in New York City. (The Frick Collection--"Great when you're stoned.") Packed with information, advice, and Abbie's unique outlaw wisdom ("Avoid all needle drugs--the only dope worth shooting is Richard Nixon."), *Steal This Book* is a timeless reminder that, no matter what the struggle, freedom is always worth fighting for. "All Power to the Imagination was his credo. Abbie was the best."--Studs Terkel

Castle Valley America - Nancy Taniguchi 2004-09

This is American history told through the stories of an atypical, for Utah, region. Castle Valley is roughly conterminous with two counties, Carbon and Emery, which together formed a rural, industrial enclave in a mostly desert environment behind the mountain range that borders Utah's principal corridor of settlement. In Castle Valley, coal mining and the railroad attracted diverse, multiethnic communities and a fair share of historic characters, from Butch Cassidy, who stole its largest payroll, to Mother Jones, who helped organize its workers against its mining companies. Among the last major segments of the state to be settled, it was also a generally poor region that stretched the capabilities of people to scratch a living from a harsh landscape. The people of Castle Valley experienced complex, unusual combinations of both social cohesion and conflict, but they struggled through poverty, labor disputes, major mining disasters, and other challenges to build communities whose stories reflected the historical course of the nation as a whole. In order to convey her subject's both unique and representative qualities, Nancy Taniguchi has written an epic history that is not just local history, but American history written locally. Nancy J. Taniguchi, who lived for thirteen years in Castle Valley and was previously on the faculty of the College of Eastern Utah in Price, is professor of history at California State University, Stanislaus. She is the author of numerous published articles in mining, legal, women's, western, and Utah history and of one book,

Necessary Fraud: Progressive Reform and Utah Coal.

Echoes in the Halls - Gordon McIntosh 1999-11

From the research labs at the University to remote lakes in Alberta and the Northwest Territories, *Echoes in the Halls* tells us the stories about the antics, the hijinks and the adventures of professors at the University of Alberta. A must-read for history buffs and University Alumni. "With so many wonderful memories, of people, events and achievements over the years, it's no wonder that the University of Alberta Drama Department holds such a large place in my heart. And it's no wonder that I still come back for opening night." - Frank Bueckert "No matter what the setting, however, I always found it immensely satisfying to teach undergraduates. It was fun. It was hard work. And there was always something further to come." - Ralph Nursall

And Still I Cook pb - Leah Chase 2011-09-08

This second cookbook from Leah Chase not only comes with her famous recipes, but it also contains her reflections on life, business, family, and friends. Now in paperback, the collection includes menus for special events.
