Task Design In Mathematics Education - Anne Watson 2015-10-26

THIS BOOK IS AVAILABLE AS OPEN ACCESS BOOK ON SPRINGERLINK This open access book is the product of ICMI Study 22 Task Design in Mathematics Education. The study offers a state-of-the-art summary of relevant research and goes beyond that to develop new insights and new areas of knowledge and study about task design. The authors represent a wide range of countries and cultures and are leading researchers, teachers and designers. In particular, the authors develop explicit understandings of the opportunities and difficulties involved in designing and implementing tasks and of the interfaces between the teaching, researching and designing roles – recognising that these might be undertaken by the same person or by completely separate teams. Tasks generate the activity through which learners meet mathematical concepts, ideas, strategies and learn to use and develop mathematical thinking and modes of enquiry. Teaching includes the selection, modification, design, sequencing, installation, observation and evaluation of tasks. The book illustrates how task design is core to effective teaching,

whether the task is a complex, extended, investigation or a small part of a lesson; whether it is part of a curriculum system, such as a textbook, or promotes free standing activity; whether the task comes from published source or is devised by the teacher or the student.

Rethinking the Work - Watchman Nee 2010-09-15

The purpose of God is to establish Christ—and not just the personal Christ but also the corporate Christ, which is the Church: “as the body is one, and hath many members, and all the members of the body, being many, are one body; so also is the Christ” (1 Cor. 12.12 Darby). The work of the Holy Spirit in these past two thousand years has been centered on building this body of Christ. We will fail God in seeing His purpose and fail the Holy Spirit in cooperating with His work if we are not “holding fast the Head, from whom all the body, being supplied and knit together through the joints and bands, increaseth with the increase of God” (Col. 2.19). The body of Christ is not only most spiritual but also most practical. It is an earthly testimony as well as a heavenly body. All its spiritual principles must be and can be practiced in a local assembly. Here in these pages, therefore, we shall find that Watchman Nee shares with us the practical aspects of the assembly life. He touches on such practical matters as authority in the church, ministry in the church, church fellowship, church meetings, and the boundary of a local assembly. It is important for the reader to remember that this volume emphasizes only the practical side of the Church, and hence concentrates on the life of the local assembly. There is another side of the Church—that of the spiritual principles inherent in the Church universal—which is not the subject of this book. To maintain the right balance and to obtain the whole concept of the Church, both the principle and the practice, both the universal and the local, must be received and kept. For it must never be forgotten that a new wine-skin is for containing the new wine; and therefore the first without the second is

meaningless. May the Head of the Church find himself expressed corporately among His people.

Jacques Ellul and the Technological Society in the 21st Century - Helena M. Jerónimo 2013-07-08

This volume rethinks the work of Jacques Ellul (1912-1994) on the centenary of his birth, by presenting an overview of the current debates based on Ellul's insights. As one of the most significant twentieth-century thinkers about technology, Ellul was among the first thinkers to realize the importance of topics such as globalization, terrorism, communication technologies and ecology, and study them from a technological perspective. The book is divided into three sections. The first discusses Ellul's diagnosis of modern society, and addresses the reception of his work on the technological society, the notion of efficiency, the process of symbolization/de-symbolization, and ecology. The second analyzes communicational and cultural problems, as well as threats and trends in early twenty-first century societies. Many of the issues Ellul saw as crucial – such as energy, propaganda, applied life sciences and communication – continue to be so. In fact they have grown exponentially, on a global scale, producing new forms of risk. Essays in the final section examine the duality of reason and revelation. They pursue an understanding of Ellul in terms of the depth of experience and the traditions of human knowledge, which is to say, on the one hand, the experience of the human being as contained in the rationalist, sociological and philosophical traditions. On the other hand there are the transcendent roots of human existence, as well as “revealed knowledge,” in the mystical and religious traditions. The meeting of these two traditions enables us to look at Ellul's work as a whole, but above all it opens up a space for examining religious life in the technological society.

The Camel Bookmobile - Masha Hamilton 2009-10-13

Fiona Sweeney wants to do something that matters, and she chooses to make her mark in the arid bush of northeastern Kenya. By helping to start a traveling library, she hopes to bring the words of Homer, Hemingway, and Dr. Seuss to far-flung tiny communities where people live daily with drought, hunger, and disease. Her intentions are honorable, and her rules are firm: due to the limited number of donated books, if any one of them is not returned, the bookmobile will not return. But, encumbered by her Western values, Fi does not understand the people she seeks to help. And in the impoverished small community of Mididima, she finds herself caught in the middle of a volatile local struggle when the bookmobile's presence sparks a dangerous feud between the proponents of modernization and those who fear the loss of traditional ways.

Dickon the Devil - Joseph Sheridan Le Fanu 2015-10-20

This early work by Sheridan Le Fanu was originally published in 1872. Born in Dublin in 1814, he came from a literary family of Huguenot origins; both his grandmother Alicia Sheridan Le Fanu and his great-uncle Richard Brinsley Sheridan were playwrights, and his niece Rhoda Broughton would go on to become a successful novelist. Le Fanu entered Trinity College, Dublin to study law. While there, he was elected Auditor of the College Historical Society, and between 1838 and 1840 published his first series of short stories, which were later collected as *The Purcell Papers*. At his peak, le Fanu was the leading ghost-story writer of the nineteenth century, and he is now seen as central to the development of the genre in the Victorian era. His work is credited with turning the Gothic's focus from the external sources of horror to the inward effects of terror, thus helping to create the psychological basis for supernaturalist literature that continues to this day. Many of the earliest books, particularly those dating back to the 1900's and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions.
