Good Participatory Practice - 2007

These Good Participatory Practice guidelines aim to provide systematic guidance on the roles and responsibilities of entities funding and conducting biomedical HIV prevention trials towards participants and their communities. Such entities include investigators, research staff, pharmaceutical industry sponsors, foundations, government-supported research networks, non-governmental research sponsors, and all others involved in designing, financing, and executing clinical trials research.

Towards Improving Governance - S. K. Agarwal 2008

Compiled to identify both sound and unproductive practices while suggesting advancements for India's governance, this volume seeks to analyze India's efforts made towards progress and to eradicate corruption. Containing previous exemplary initiatives and information about public-domain tools, this resource deals with the perception of governance in India and its status in the monopolistic services including the four major ones-- the police, judiciary, income tax, and property registration. This account also discusses citizens' charters, the right to information, e-governance, social audits, report cards, and the integrity pact as means for positive development.

Sustainable Grassland Productivity - J. Lloveras 2006

Smart Health - Hsinchun Chen 2018-10-26

This book constitutes the thoroughly refereed post-conference proceedings of the International Conference for Smart Health, ICSH 2018, held in Wuhan, China, in July 2018. The 14 full papers and 21 short papers presented were carefully reviewed and selected from 49 submissions. They focus on studies on the principles, approaches, models, frameworks, new applications, and effects of using novel information technology to address healthcare problems and improve social welfare. The selected papers are organized into the following topics: smart hospital; online health community; mobile health; medical big data and healthcare machine learning; chronic disease management; and health informatics.

Trends in Food Safety and Protection - V Ravishankar Rai 2017-09-18

Trends in Food Safety and Protection explores the recent developments and ongoing research in the field of

food safety and protection. The book covers improvements in the existing techniques and implementation of novel analytical methods for detecting and characterizing foodborne pathogens.

Literary Market Place - 2000-10

Literary Market Place 2001 is the ultimate insider's guide to the U.S. book publishing industry, covering every conceivable aspect of the business. In two, easy-to-use volumes, it provides: -- 50 sections organizing everyone and everything in the business -- from publishers, agents, and ad agencies to associations, distributors, and events -- Over 14,500 listings in all -- featuring names, addresses, and numbers ... key personnel ... activities, specialties, and other relevant data ... e-mail addresses and Web sites ... and more -- Some 24,000 decision-makers throughout the industry, listed in a separate "Personnel Yellow Pages" section in each volume -- Thousands of services and suppliers equipped to meet every publishing need or requirement -- More than 400 new entries to this edition plus thousands of updated listings throughout. LMP 2001 leaves no stone unturned in connecting you with the publishing firm, service, or product you or your patrons need. It's completely revised and updated to help: -- Publishers locate other publishers, free-lancers, agents, printers, wholesalers, manufacturers, and more -- Suppliers find names and numbers of potential publishing customers -- Job seekers locate contact names, addresses, and phone numbers throughout the industry -- Booksellers get publisher ordering and shipping information -- Writers locate publishers for their works -- Librarians provide patrons with the reference source they need to find their way through the publishing industry

Carcass management guidelines - Miller, L.P., Miknis, R.A. and Flory, G.A.. 2020-12-28

Animal disease outbreaks pose many challenges for response authorities that can impact livelihoods, food security, and the environment. Proper disposal of animal carcasses that die or are culled during the outbreak is a key component of a successful response to a disease outbreak because it helps prevent or mitigate the further spread of pathogens and in case of zoonotic disease, to further protect human health. The practical guidelines presented hereby provide carcass and related waste management considerations and recommended procedures for use by Veterinary Services and other official response authorities when developing animal disease outbreak containment and eradication plans. The guidelines apply to animal disease outbreaks of varying sizes, whether the outbreak is isolated to a single premise or spans a region to cover numerous premises. However, they are focused on small to medium-sized holdings in countries without access to engineered landfills, rendering plants or controlled incinerators. The guidelines are written in the spirit of "keep it simple and doable", considering the limited human and financial resources that many countries are constrained with. Its presentation and practical approach ensure that countries will find it very useful for their emergency operation procedures toolbox. Further, the guidelines directly contribute to the one-health approach by protecting the health of animals, humans, and the environment.

Theory and Practice of Dialogical Community Development - Peter Westoby 2013-07-18

This book proposes that community development has been increasingly influenced and co-opted by a modernist, soulless, rational philosophy - reducing it to a shallow technique for 'solving community problems'. In contrast, this dialogical approach re-maps the ground of community development practice within a frame of ideas such as dialogue, hospitality and depth. For the first time community development practitioners are provided with an accessible understanding of dialogue and its relevance to their practice, exploring the contributions of internationally significant thinkers such as P. Freire, M. Buber, D. Bohm and H.G Gadamer, J. Derrida, G. Esteva and R. Sennett. What makes the book distinctive is that: first, it identifies a dialogical

tradition of community development and considers how such a tradition shapes practice within contemporary contexts and concerns – economic, social, political, cultural and ecological. Second, the book contrasts such an approach with technical and instrumental approaches to development that fail to take complex systems seriously. Third, the approach links theory to practice through a combination of storytelling and theory-reflection – ensuring that readers are drawn into a practice-theory that they feel increasingly confident has been 'tried and tested' in the world over the past 25 years.

Forage Plant Ecophysiology - Cory Matthew 2018-03-16

This book is a printed edition of the Special Issue "Forage Plant Ecophysiology" that was published in Agriculture

Emerging Trends in Information Systems - Jörg Becker 2015-11-25

This book presents and discusses the most recent innovations, trends, results, experiences and concerns with regard to information systems. Individual chapters focus on IT for facility management, process management and applications, corporate information systems, design and manufacturing automation. The book includes new findings on software engineering, industrial internet, engineering cloud and advance BPM methods. It presents the latest research on intelligent information systems, computational intelligence methods in Information Systems and new trends in Business Process Management, making it a valuable resource for both researchers and practitioners looking to expand their information systems expertise.

Lipid Oxidation - Amy S. Logan 2015-08-15

Lipid oxidation in food systems is one of the most important factors which affect food quality, nutrition, safety, color and consumers' acceptance. The control of lipid oxidation remains an ongoing challenge as most foods constitute very complex matrices. Lipids are mostly incorporated as emulsions, and chemical reactions occur at various interfaces throughout the food matrix. Recently, incorporation of healthy lipids into food systems to deliver the desired nutrients is becoming more popular in the food industry. Many food ingredients contain a vast array of components, many of them unknown or constituting diverse or undefined molecular structures making the need in the food industry to develop effective approaches to mitigate lipid oxidation in food systems. This book provides recent perspectives aimed at a better understanding of lipid oxidation mechanisms and strategies to improve the oxidative stability of food systems. Five chapters on naturally-derived antioxidants that focus on applications within food systems Contributors include an international group of leading researchers from academic, industrial, and governmental entities Discusses the oxidative stability of enzymatically produced oils and fats Provides overviews on the complexities of lipid oxidation mechanisms, and emulsion systems most susceptible to rapid lipid oxidation

Oxidative Stability and Shelf Life of Foods Containing Oils and Fats - Min Hu 2016-01-19

Oxidative Stability and Shelf Life of Foods Containing Oils and Fats focuses on food stability and shelf life, both important factors in the improvement and development of food products. This book, relevant for professionals in the food and pet food industries, presents an evaluation of methods for studies on the oxidative stability and shelf life of bulk oils/fats, fried oils and foods, food emulsions, dried foods, meat and meat products, and seafood in food and pet food. Focuses on the application of various evaluation methods to studies of oxidative stability and shelf life in oils and fats and oils and fats-containing foods in the food and pet food industries Discusses oxidative stability and shelf life of low-moisture (dry) food, including dry pet food Discusses lipid co-oxidation with protein because a number of food products contain both lipids and proteins Directed mainly toward

readers working in the food and pet food industries

Brands and Their Companies - 2007

INDIA'S NEW CAPITALISTS - Harish Damodaran 2018-11-25

It's no secret that certain social groups have predominated India's business and trading history, with business traditionally being the preserve of particular 'Bania' communities. However, the past four or so decades have seen a widening of the social base of Indian capital, such that the social profile of Indian business has expanded beyond recognition, and entrepreneurship and commerce in India are no longer the exclusive bastion of the old mercantile castes. In this meticulously researched book ? acclaimed for being the first social history to document and understand India's new entrepreneurial groups ? Harish Damodaran looks to answer who the new 'wealth creators' are, as he traces the transitional entry of India's middle and lower peasant castes into the business world. Combining analytical rigour with journalistic flair, India's New Capitalists is an essential read for anyone seeking to understand the culture and evolution of business in contemporary South Asia.

Characterization of Plant Viruses - Alangar Ishwara Bhat 2021-03-20

This book provides detailed information on methodologies used in biological, serological and nucleic acid based assays for the detection, diagnosis and management of plant viruses. The content is divided into six main parts, the first of which presents techniques used in the biological characterization and transmission of viruses, while Part II covers purification and techniques concerning the physico-chemical properties of viruses. In turn, Part III focuses on in vitro expression, production of polyclonal and monoclonal antibodies; and on various serological assays including precipitin tests, ELISA, blot immunoassays, immunosorbent electron microscopy and lateral flow immunoassays. Part IV addresses the isolation of DNA and RNA from plants and nucleic acid based assays such as dot-blot, polymerase chain reaction, real-time PCR, loop-mediated isothermal amplification, rolling circle amplification, recombinase polymerase amplification, and next-generation sequencing approaches. Part V discusses cloning, sequencing, sequence analysis and the production of infectious clones, while the last part (Part VI) provides biotechnological approaches for the management of viruses. Given its scope, the book will be a valuable resource for every laboratory, student and teacher, and for everyone interested in plant virology, plant pathology, plant biology and molecular biology, offering them a practical manual on various aspects of plant viruses.

Redesigning America's Community Colleges - Thomas R. Bailey 2015-04-09

Community colleges enroll half of the nation's undergraduates. Yet only 40 percent of entrants complete an undergraduate degree in six years. Redesigning America's Community Colleges explains how two-year colleges can increase their students' success rate quickly and at less cost, through a program of guided pathways to completion.

Artificial Intelligence in Society - OECD 2019-06-11

The artificial intelligence (AI) landscape has evolved significantly from 1950 when Alan Turing first posed the question of whether machines can think. Today, AI is transforming societies and economies. It promises to generate productivity gains, improve well-being and help address global challenges, such as climate change, resource scarcity and health crises.

The Money Market Directory of Small Pension Funds - 2005

Government at a Glance Southeast Asia 2019 - OECD 2019-09-10

Government at a Glance Southeast Asia 2019 is the first edition in the Government at a Glance series for the region. It provides the latest available data on public administrations in the 10 ASEAN member countries: Brunei Darussalam, Cambodia, Indonesia, Lao People's Democratic Republic, Malaysia, Myanmar, the Philippines, Singapore, Thailand and Viet Nam.

A Text Book of Social Sciences for Class 8 - D. N. Kundra 2020-04-01

Our series, A Textbook of Social Sciences for Classes 6 – 8, has been revised according to the latest instructions and guidelines given by CBSE, and the latest NCERT syllabus. Our new series keeps this view in mind and is a learner-friendly series in the true sense of the word. It explains the basic concepts of Social Sciences in such a clear, stimulating and comprehensive manner that the child has no problem whatsoever in understanding the complex working of the present day society and the world at large. Each book in the series has been divided into three units — History, Geography and Social and Political Life. Other salient features of the series are :
Goyal Brothers Prakashan | The syllabus has been covered comprehensively, dealing with all aspects — political, social, economic and cultural. | Simple and straightforward text which helps the child to easily understand the text. | Attractive illustrations, well-labelled diagrams and detailed maps make the process of learning truly enjoyable. | Did You Know? – Interesting facts which kindle the child's curiosity to know more. | Case Studies assist the child to understand topics with ease. | For Assessment : Periodic Test 1, Periodic Test 2, Model Test Paper 1 (for Half Yearly Examination), Periodic Test 3, Periodic Test 4, Model Test Paper 2 (for Yearly Examination).

Nutrition and Dietetics - Shubhangini A. Joshi 1992

3D Cell Culture - John Haycock 2010-11-02

Developed for a range of tissues where the culture environment takes into account the spatial organization of the cells therein, 3D cell culture models serve to bridge the gap between in vivo studies at one extreme with that of simple cell monolayers at the other. In 3D Cell Culture: Methods and Protocols, international experts describe a number of basic and applied methodologies taken from a breadth of scientific and engineering disciplines, many of which deal with direct applications of 3D culture models, most notably in the formation of tissues for clinical purpose. Beginning with an overview of the biological and materials scaffold requirements for successfully creating 3D models, the book delves into topics such as general scaffold design and fabrication techniques, models for bone, skin, cartilage, nerve, bladder, and hair follicles, and chapters on bioreactor design, imaging, and stem cells. Written in the highly successful Methods in Molecular Biology™ series format, chapters include brief introductions to their respective subjects, lists of the necessary materials, step-by-step, readily reproducible laboratory protocols, and notes on troubleshooting and avoiding known pitfalls.

Authoritative and cutting-edge, 3D Cell Culture: Methods and Protocols serves as a basic manual for laboratory-based scientists who not only need to have a comprehensive range of techniques contained within a single text but also require techniques described using a standard, convenient format.

The Makings of a Millionaire - M. V. Kamath 1991

Biopesticides in Horticultural Crops - Rajeshwari R. 2021-11-18

This book is a compendium of information related to innovations, commercialization and registration of biopesticides, recent advances in mass production, formulation, extension of shelf life, delivery systems of antagonists and entomopathogens and synergistic and antagonistic response of biopesticides with agrochemicals. The information on all the important laboratory protocols and techniques in isolation, identification, selection, culturing, mass production, formulation, enhancement of shelf life and biosafety issues of bioinoculants used as biopesticides in horticulture crops have been included for the benefit of research scientists, teachers, research scholars and students working in the field of biopesticides. Note: T&F does not sell or distribute the hardback in India, Pakistan, Nepal, Bhutan, Bangladesh and Sri Lanka.

Applied Thin-Layer Chromatography - Elke Hahn-Deinstrop 2007-02-27

Thin-layer chromatography (TLC) is a powerful, fast and inexpensive analytical method. It has proven its usefulness in pharmaceutical, food and environmental analysis. This new edition of the practical TLC guide features a completely revised chapter on documentation, now including the use of digital cameras. Selected new sorbents and instruments are also introduced. Why has the prior edition been successful? All steps of the analytical procedure are clearly explained, starting with the choice of a suitable TLC technique and ending with data evaluation and documentation. Special emphasis is put on the proper choice of materials for TLC. Properties and functions of various materials and the TLC equipment are described, covering e. g. precoated layers, solvents and developing chambers, including information on suppliers. Many practical hints for trouble shooting are given. All this is illustrated with numerous coloured figures. How to use TLC in compliance with GLP/GMP regulations is described in detail, including the required documentation. Therefore the reader can very easily compile his own standard operating procedures.

Edible Oleogels - Alejandro G. Marangoni 2018-06-11

Edible Oleogels, Structure and Health Implications, Second Edition presents a novel strategy on how to eliminate trans fats from our diets. Topics covered include how to avoid excessive amounts of saturated fat by structuring oil to make it behave like crystalline fat and how to develop trans fat free, low saturate, functional shortenings for the food industry. The major approach to form these materials is covered, helping manufacturers incorporate specific molecules (polymers, amphiphiles, waxes) into oil components. As such, this an ideal resource for those in product development and anyone interested in understanding the role of trans and saturated fats in health and nutrition. In an effort to provide alternatives to trans and saturated fats, scientists have been busy modifying the physical properties of oils to resemble those of fats. Many food products requiring a specific texture and rheology can be made with these novel oil-based materials without causing significant changes to final product quality. Hence, this book provides a valuable resource on new advancements. Presents emerging science on beta gels using natural triglycerides, ethylcellulose oleogels, and oleotropic liquid crystals Suggests a novel strategy to eliminate trans fats from our diets and avoid excessive amounts of saturated fat by structuring oil to make it behave like crystalline fat Reviews the structuring of edible oils to form new mesoscale and nanoscale structures, including nanofibers, mesophases, and functionalized crystals and crystalline particles Identifies evidence on how to develop trans fat free, low saturate, functional shortenings for the food industry

Corporate Governance Mechanisms and Firm Performance - Shveta Singh

This book begins by analysing the various corporate governance mechanisms explored in the extant literature and determining their effectiveness in enhancing the firm value using multivariate analysis. The findings are of global relevance as the corporate governance regulations of most countries focus on independent directors as the mainstay of good governance. The empirical evidence from the first objective of this study corroborates the claim that independent directors do not strengthen the firms governance quality. The book is one of the few works to have analysed the possible reasons behind the ineffectiveness of the independent directors. Also, in view of the famous concept of the bundle of governance mechanisms, it might be possible that the independent directors strengthen the firms governance quality indirectly by strengthening other governance mechanisms. This aspect too has little precedence. This study adopts a novel moderation and mediation approach to analyse the monitoring behaviour of independent directors in relation to other governance mechanisms. The work is a must read for corporate players as well as researchers and scholars studying this discipline.

Measurement and Classification - OnBoard Lessons 2017-01-01

Measurement and Classification Introduction to Classification • Explore the idea of grouping objects, plants and animals by classification Bar Graphs • Practice simple data collection and understand how to display this data in a bar graph • Answer questions about data using a bar graph Physical Properties of Materials • Identify and recall various physical properties of materials • Sort objects based upon their physical properties Measurement • Investigate units of measurement by measuring objects with shoes and arms. • Explore why standard units of measurement are important and then practice measurement of length, mass and volume using a ruler, a balance and a graduated cylinder * Recognize the most appropriate units of measurement for a given object or situation

Major Companies Asia 2007 SW Asia - Editor 2006-11

This authoritative directory has been expanded to cover 13,000 major companies and includes the contact names of more than 81,000 senior executives. major companies and includes the contact names of more than 81,000 senior executives. Introducing Slavoj Zizek - Christopher Kul-Want 2014-06-05

Charting his meteoric rise in popularity, Christopher Kul-Want and Piero explore Zizek's timely analyses of today's global crises concerning ecology, mounting poverty, war, civil unrest and revolution. Covering topics from philosophy and ethics, politics and ideology, religion and art, to literature, cinema, corporate marketing, quantum physics and virtual reality, Introducing Slavoj Zizek deftly explains Zizek's virtuoso ability to transform apparently outworn ideologies – Communism, Marxism and psychoanalysis – into a new theory of freedom and enjoyment.

Packaging Technology - Anne Emblem 2012-10-29

Packaging is a complex and wide-ranging subject. Comprehensive in scope and authoritative in its coverage,

Packaging technology provides the ideal introduction and reference for both students and experienced packaging professionals. Part one provides a context for the book, discussing fundamental issues relating to packaging such as its role in society and its diverse functions, the packaging supply chain and legislative, environmental and marketing issues. Part two reviews the principal packaging materials such as glass, metal, plastics, paper and paper board. It also discusses closures, adhesives and labels. The final part of the book discusses packaging processes, from design and printing to packaging machinery and line operations, as well as hazard and risk management in packaging. With its distinguished editors and expert contributors, Packaging technology is a standard text for the packaging industry. The book is designed both to meet the needs of those studying for the Diploma in Packaging Technology and to act as a comprehensive reference for packaging professionals. Provides the ideal introduction and reference for both students and experienced packaging professionals Examines fundamental issues relating to packaging, such as its role in society, its diverse functions, the packaging supply chain and legislative, environmental and marketing issues Reviews the principal packaging materials such as glass, metal, plastics, paper and paper board

Forage Evaluation in Ruminant Nutrition - D. I. Givens 2000-05-25

Current pressures to maximise the use of forages in ruminant diets have renewed interest in fast, inexpensive methods for the estimation of their nutritional value. As a result, a wide variety of biological and physiochemical procedures have recently been investigated for this purpose. This book is the single definitive reference volume on the current status of research in this area Covers all forages eaten by ruminant animals

The Cambridge Handbook of Copyright in Street Art and Graffiti - Enrico Bonadio 2019-11-07

In recent years, the number of conflicts related to the misuse of street art and graffiti has been on the rise around the world. Some cases involve claims of misappropriation related to corporate advertising campaigns, while others entail the destruction or 'surgical' removal of street art from the walls on which they were created. In this work, Enrico Bonadio brings together a group of experts to provide the first comprehensive analysis of issues related to copyright in street art and graffiti. Chapter authors shed light not only on the legal tools available in thirteen key jurisdictions for street and graffiti artists to object to unauthorized exploitations and unwanted treatments of their works, but also offer policy and sociological insights designed to spur further debate on whether and to what extent the street art and graffiti subcultures can benefit from copyright and moral rights protection.

Nutrient Deficiencies of Field Crops - Prakash Kumar 2013-12-06

Nutrient imbalance in soils is an emerging threat to sustainable agriculture: intensive cultivation, use of poor quality groundwater, depletion of soil organic matter and excessive use of fertilizers are major reasons for poor soil fertility worldwide. This necessitates correct diagnosis of plant nutrient deficiencies to avoid further use of pesticides in cases where pests or pathogens that are not in fact the cause of poor crop health. Richly illustrated with 600 colour photographs, this book is a visual field identification guide for symptoms of most common nutrient deficiencies in field crops, covering all their stages of occurrence. Detailed descriptions and suggested for management practices are given with each entry.
