Latin America in the Modern World - Virginia Garrard 2018-02-08

Latin America in the Modern World covers all regions of Latin America and is the first text to situate modern Latin American history in a global context. While providing in-depth coverage of the history of the three largest Latin American countries - Mexico, Brazil, and Argentina - this text also offers case studies from almost all of the countries and clearly identifies themes, topics, people, and intellectual currents that help to knit the history of modern Latin America into a coherent category of study.

International Accounting and Multinational Enterprises - Lee H. Radebaugh 2006-01-04

Make informed decisions in today's dynamic international business environments. International accounting has never been so exciting. Not only is the pace of international business, finance, and investment rapidly increasing, but we are also moving closer than ever before toward a convergence of accounting standards worldwide. Updated and revised to keep pace with these changes, this

Sixth Edition of Radebaugh, Gray, and Black's International Accounting and Multinational Enterprises focuses on international business strategies and how accounting applies to these strategies. You'll learn how to use financial and accounting information across borders, and make more informed decisions in an increasingly complex international business environment. The authors also explain the key factors, including cultural differences, that influence accounting standards and practices in different countries, and how those factors impact the harmonization of standards worldwide. New to This Edition: * New coauthor, Ervin L. Black of Brigham Young University. * Updated coverage on corporate governance, Sarbanes-Oxley, the Public Company Accounting Oversight Board (PCAOB), and how these forces affect U.S.-based multinationals, as well as companies in other countries. * Increased coverage of the efforts of the International Accounting Standards Board (IASB) to establish a uniform set of International Financial Reporting Standards (IFRS) worldwide and its interface with different national standard setters, especially the FASB. Special attention is given to the experience of the European Union and Australia in adopting IFRS in 2005. * A web-based International Accounting Practice Problem, which helps students see how to apply IFRS to a set of transactions. * Brief, user-oriented examples called Strategic Decision Points at the beginning of each chapter. * Expanded end-of-chapter material, including more discussion questions and exercises. * New cases (two per chapter) on the web. * Accounting for foreign exchange is now covered in two chapters. One chapter focuses on accounting issues, and the other chapter, which is new, focuses on foreign exchange risk management.

Boundaries - Christine E. Gudorf 2010-04-15

In this expanded and revised edition of a fresh and original case-study textbook on environmental ethics, Christine Gudorf and James Huchingson continue to explore the line that separates the current state of the environment from what it should be in the future. *Boundaries* begins with a lucid overview of the field, highlighting the key developments and theories in the environmental movement. Specific cases offer a rich and diverse range of situations from around the globe, from saving the forests of Java and the use of pesticides in developing countries to restoring degraded ecosystems in Nebraska. With an emphasis on the concrete circumstances of particular localities, the studies continue to focus on the dilemmas and struggles of individuals and communities who face daunting decisions with serious consequences. This second edition features extensive updates and revisions, along with four new cases: one on water privatization, one on governmental efforts to mitigate global climate change, and two on the obstacles that teachers of environmental ethics encounter in the classroom. *Boundaries* also includes an appendix for teachers that describes how to use the cases in the classroom.

International Business - John D. Daniels 2007

Despite dramatic improvements in the security environment in most parts of Iraq, still unresolved are many core political issues, foremost of which is the conflict over the city and region of Kirkuk. With immense oil reserves and a diverse population of Kurds, Arabs, and Turkmens, Kirkuk in recent history has been scarred by interethnic violence and state-sponsored ethnic cleansing.

Throughout the twentieth century, successive Arab Iraqi governments engaged in a brutal campaign to increase Kirkuk's Arab population at the expense of Kurds and Turkmens. Following the invasion of Iraq in 2003, a newly empowered Kurdish leadership has sought to reverse the effects of the Arabization campaign and to hold a referendum on incorporating Kirkuk into the Kurdistan Region. The Kurds' efforts are, however, strongly opposed by Kirkuk's Turkmens, Arabs, and also most states in the region. In *Crisis in Kirkuk*, Liam Anderson and Gareth Stansfield offer a dispassionate analysis of one of Iraq's most pressing and unresolved problems. Drawing on extensive research and fieldwork, the authors investigate the claims to ownership made by each of Kirkuk's competing communities. They consider the constitutional mechanisms put in place to address the issue and the problems that have plagued their implementation. The book concludes with an assessment of the measures needed to resolve the crisis in Kirkuk, stressing that finding a compromise acceptable to all sides is vital to the future stability of Iraq.

Einstein Fellows - Tim Spuck 2014

Science, technology, engineering, and mathematics (STEM) education is seen by leaders from across the globe as key to economic success and prosperity. Einstein Fellows attempts to improve the state of STEM education, not only here in the United States, but internationally as well. As the body of STEM-learning research grows, this volume provides the unique perspective of nationally recognized educators who have spent, collectively, more than 400,000 hours at the interface between teaching and learning. Each chapter communicates how its author has implemented a specific STEM practice in the classroom and how the

practice might be modified for use in other classrooms, schools, and learning environments. Readers of *Einstein Fellows: Best Practices in STEM Education* will gain powerful insight about what really works when it comes to teaching and learning STEM. This publication will serve as an excellent resource for use in any science, technology, engineering, and mathematics teaching methods course; no professional education library K through college, should be without a copy.

Risk Habitat Megacity - Dirk Heinrichs 2011-10-09

Megacity development and the inherent risks and opportunities for humans and the environment is a theme of growing urgency in the 21st century. Focusing on Latin America where urbanization is most advanced, this book studies the complexity of a 'mega-urban system' and explores interrelations between sectors and issues by providing an in-depths study of one particular city, Santiago de Chile. The book attempts to (i) focus on the emergence of risk in megacities by analyzing risk elements, (ii) evaluate the extent and severity of risks, (iii) develop strategies to cope with adverse risks, and (iv) to guide urban development by combining concepts with empirical evidence. Drawing on the work of an interdisciplinary and international consortium of academic and professional partners, the book is written for scholars in cross-cutting areas of urban, sustainability, hazard, governance and planning research as well as practitioners from local, regional and international organizations.

Dogfight, A Love Story - Matt Burgess 2010-09-21

What Jonathan Lethem did for Brooklyn, Matt Burgess does for Queens in this exuberant and brilliant debut novel about a young drug dealer having a very bad weekend. Alfredo Batista has some worries. Okay, a lot of worries. His older brother, Jose—sorry, Tariq—is returning from a stretch in prison after an unsuccessful robbery, a burglary that Alfredo was supposed to be part of. So now everyone thinks Alfredo snitched on his brother, which may have something to do with the fact that Alfredo is now dating Tariq's ex-girlfriend, Isabel, who is eight months pregnant. Tariq's violent streak is probably #1 worry on Alfredo's list. Also, he needs to steal a pit bull. For the homecoming dogfight. Burgess brings to life the rich and vivid milieu of his hometown native Queens in all its glorious variety. Here is the real New York, a place where Pakistanis, Puerto Ricans, Haitians, Anglos, African Americans, and West Indians scrap and mingle and love. But the real star here is Burgess's incredible ear for language—the voices of his characters leap off the page in riotous, spot-on dialogue. The outer boroughs have their own language, where a

polite greeting is fraught with menace, and an insult can be the expression of the most tender love. With a story as intricately plotted as a Shakespearean comedy—or revenge tragedy, for that matter—and an electrically colloquial prose style, *Dogfight*, a Love Story establishes Matt Burgess as an exuberant new voice in contemporary literature. The great Queens novel has arrived.

Raising Goats Naturally - Deborah Niemann 2013-10-01

Complete self-sufficiency may seem out of reach, but for more and more of us, increasing our self-reliance as much as possible is the order of the day. Incorporating dairy goats as the centerpiece of a diversified homestead can be the key to achieving this goal, and *Raising Goats Naturally* will show you how. By working with nature, you can raise dairy goats and produce your own milk, cheese, meat, fertilizer, leather, fiber, and soap - all without relying on drugs or following the factory farm model. By observing your own animals closely and educating yourself about their specific needs, you can create an individualized plan for keeping them healthy and maximizing their productivity. This unique, fully-illustrated guide will teach you to help your herd thrive with: breed-specific descriptions to help you choose the right goats for your goals and lifestyle detailed information on housing, fencing, breeding, health, milking, and nutrition complete recipes and instructions for making your own cheese, dairy products, and soap, as well as cooking with goat meat. Packed with personal experiences backed up by expert veterinary advice and scientific studies, *Raising Goats Naturally* brings together a wealth of practical information on raising goats for the love of it and using their milk and meat to become more self-reliant.

The Second Child - Caroline Bond 2018-03-22

Chosen for the Radio 2 Book Club with Simon Mayo 'A carefully crafted and utterly compelling tale of lost opportunity and impossible choices.' Amanda Brooke, author of *The Affair* Why do you love your child? Is it because they're a straight A student, a talented footballer? Or is it simply because they're yours? Sarah and Phil love both their children, James and Lauren. The couple have the same hopes and aspirations as any parent. But their expectations are shattered when they discover that their perfect baby daughter has been born with a flaw; a tiny, but life-changing glitch that is destined to shape her future, and theirs, irrevocably. Over time the family adapt and even thrive. Then one day a blood test casts doubt on the very basis of their family. Lauren is not Phil's child. Suddenly, their precious family is on the brink of

destruction. But the truth they face is far more complex and challenging than simple infidelity. It tests their capacity to love, each other and their children, and it raises the question of what makes - and what breaks - a family.

A Modern Approach to Evidence - Richard O. Lempert 1983-05

Project LINK - Lawrence Robert Klein 1977

Thirteen Clocks - Robert G. Parkinson 2021-03-25

In his celebrated account of the origins of American unity, John Adams described July 1776 as the moment when thirteen clocks managed to strike at the same time. So how did these American colonies overcome long odds to create a durable union capable of declaring independence from Britain? In this powerful new history of the fifteen tense months that culminated in the Declaration of Independence, Robert G. Parkinson provides a troubling answer: racial fear. Tracing the circulation of information in the colonial news systems that linked patriot leaders and average colonists, Parkinson reveals how the system's participants constructed a compelling drama featuring virtuous men who suddenly found themselves threatened by ruthless Indians and defiant slaves acting on behalf of the king. Parkinson argues that patriot leaders used racial prejudices to persuade Americans to declare independence. Between the Revolutionary War's start at Lexington and the Declaration, they broadcast any news they could find about Native Americans, enslaved Blacks, and Hessian mercenaries working with their British enemies. American independence thus owed less to the love of liberty than to the exploitation of colonial fears about race. *Thirteen Clocks* offers an accessible history of the Revolution that uncovers the uncomfortable origins of the republic even as it speaks to our own moment.

Phosphorus in Environmental Technology - E. Valsami-Jones 2004-05-31

Phosphorus in Environmental Technology: Principles and Applications, provides a definitive and detailed presentation of state-of-the-art knowledge on the environmental behaviour of phosphorus and its applications to the treatment of waters and soils. Special attention is given to phosphorus removal for recovery technologies, a concept that has emerged over the past 5-6 years. The book features an all-encompassing approach: the fundamental science of phosphorus (chemistry, geochemistry, mineralogy, biology), key aspects of its environmental behaviour and mobility, industrial applications (treatment, removal, recovery) and the principles behind such applications, novel biotechnologies and, importantly, it also addresses socio-economic issues which often influence implementation and the ultimate success of any new technology. A detailed subject index helps the reader to find their way through the different scientific and technological aspects covered, making it an invaluable reference work for students, professionals and consultants dealing with phosphorus-related environmental technologies. State-of-the-art knowledge on the behaviour of phosphorus and its applications to environmental science and technology. Covers all aspects of phosphorus in the environment, engineered and biological systems; an interdisciplinary text.

World Development Indicators 2011 - World Bank 2011

'World Development Indicators' (WDI) is the World Bank's annual compilation of data about development. This statistical work allows readers to consult over 800 indicators for more than 150 economies and 14 country groups in more than 90 tables. It provides a current overview of regional data and income group analysis in six thematic sections - World View, People, Environment, Economy, States and Markets, and Global Links. This book presents current and accurate development data on both a national level and aggregated globally. It allows readers to monitor the progress made toward meeting the Millennium Development Goals endorsed by the United Nations and its member countries, the World Bank, and a host of partner organizations. These goals, which focus on development and the elimination of poverty, serve as the agenda for international development efforts. The CD-ROM contains time series data for more than 200 economies from 1960-2009, single-year observations, and spreadsheets on many topics. It contains more than 1,000 country tables and the text from the 'WDI 2010' print edition. The Windows based format permits users to search for and retrieve data in spreadsheet form, create maps and charts, and fully download them into other software programs for study or presentation purposes.

True Stories at the Smoky View - Jill McCroskey Coupe 2016-04-05

IPPY Gold Medal for Regional Fiction (South) *True Stories at the Smoky View* is a wry, intricate novel about family and friendship, tyranny and justice. Although Vrai (short for Vraiment), an art history librarian in Baltimore, has not spoken to her friend Skip for over a year, after his sudden death, she dutifully takes his ashes and his dog home to his mother in Knoxville, Tennessee. Vrai has no idea why Skip stepped into traffic in Baltimore with his hands over his eyes, or why he so abruptly ended their longtime friendship. After Skip's service, Vrai rescues ten-year-old Jonathan, who has been abandoned in the funeral home parking lot. The Blizzard of 1993 soon strands this unlikely duo at the Smoky View Motel, where Jonathan, whose parents were assassinated by Pinochet's henchmen, comes across clues pointing to a possible suspect in Skip's death. By the end of this story of mutual rescue, both Vrai's and Jonathan's lives have been changed forever.
