In The Meantime - Iyanla Vanzant 2012-12-11

Most of us go through life with a vision of what the ideal relationship is supposed to be, yet too often our longing for a soul mate leads to disappointment and heartbreak. What we see, desire, or harshly judge in our mate is but a reflection of self, Vanzant explains, as in **IN THE MEANTIME** she helps us to break free of our fantasies and view a relationship as an ongoing process of discovery and growth. Whether she is offering practical advice on how to avoid making the same relationship mistakes over and over again, or helping us to view the painful end of a relationship as an opportunity to learn and change, Iyanla Vanzant, as author Patrice Gains has said, 'reminds us that every moment is an opportunity to learn and inspires and encourages us to continue our inward daily search'.

**Money Has No Smell** - Paul Stoller 2010-03-05

In February 1999 the tragic New York City police shooting of Amadou Diallo, an unarmed street vendor from Guinea, brought into focus the existence of West African merchants in urban America. In **Money Has No Smell**, Paul Stoller offers us a more complete portrait of the complex lives of West African immigrants like Diallo, a portrait based on years of research Stoller conducted on the streets of New York City during the 1990s. Blending fascinating ethnographic

description with incisive social analysis, Stoller shows how these savvy West African entrepreneurs have built cohesive and effective multinational trading networks, in part through selling a simulated Africa to African Americans. These and other networks set up by the traders, along with their faith as devout Muslims, help them cope with the formidable state regulations and personal challenges they face in America. As Stoller demonstrates, the stories of these West African traders illustrate and illuminate ongoing debates about globalization, the informal economy, and the changing nature of American communities.

## **How to Completely Change Your Life in 30 Seconds** - Robert C. Worstell

2015-02-07

Here's the secret in 3 steps: 1. Suspend disbelief as you read the following: 2. ""We Become What We Think About."" - Earl Nightingale 3. Then, decide that it's true. Now, the rest of your life, you'll be testing this for yourself. You may be asking questions like these: - Can you actually change what you think about? - Do positive thoughts create a positive personal environment? - By being critical of anything or anyone around you actually improve conditions? - Is your health affected by negative thinking? You'll find continuing instances of how this is true and how it might not be. You'll be "haunted" by this singular thought, although the results won't make you lose sleep - instead, you'll awake with fresh inspirations from time to time about how to live your life even better than you are now. Because you've just started on a journey which has no definite end. And Earl Nightingale once said: "Start today. You have nothing to lose - but you have your whole life to win."

## **Please Stop Helping Us** - Jason L. Riley 2016-01-05

Why is it that so many efforts by liberals to lift the black underclass not only fail, but often harm the intended beneficiaries? In *Please Stop Helping Us*, Jason L. Riley examines how well-intentioned welfare programs are in fact holding black Americans back. Minimum-wage laws may lift earnings for people who are already employed, but they price a disproportionate number of blacks out of the labor force. Affirmative action in higher education is intended to address past discrimination, but the result is fewer black college graduates than would otherwise exist. And so it goes with everything from soft-on-crime laws, which make black neighborhoods more dangerous, to policies that limit school choice out of a mistaken belief that charter schools and voucher programs harm the traditional public schools that most low-income students attend. In theory these efforts are intended to help the poor—and poor minorities in particular. In practice they become massive barriers to moving forward. *Please Stop Helping Us* lays bare these counterproductive results. People of goodwill want to see more black socioeconomic advancement, but in too many instances the current methods and approaches aren't working. Acknowledging this is an important first step.

168 Hours - Laura Vanderkam 2010-05-27

There are 168 hours in a week. This book is about where the time really goes, and how we can all use it better. It's an unquestioned truth of modern life: we are starved for time. With the rise of two-income families, extreme jobs, and 24/7 connectivity, life is so frenzied we can barely find time to breathe. We tell ourselves we'd like to read more, get to the gym regularly, try new hobbies, and accomplish all kinds of goals. But then we give up because there just aren't enough hours to do it all. Or else, if we don't make excuses, we make sacrifices. To get ahead at work we spend less time with our spouses. To carve out more family time, we put off getting in shape. To train for a marathon, we cut back on sleep. There has to be a better way-and Laura Vanderkam has found one. After interviewing dozens of successful, happy people, she realized that they allocate their time differently than most of us. Instead of letting the daily grind crowd out the important stuff, they start by making sure there's time for the important stuff. They focus on what they do best and what only they can do. When plans go wrong and they run out of time, only their lesser priorities suffer. It's not always easy, but the payoff is enormous. Vanderkam shows that it really is possible to sleep eight hours a night, exercise five days a week, take piano lessons, and write a novel without giving up quality time for work, family, and other things that really matter. The key is to start with a blank slate and to fill up your 168 hours only with things that deserve your time. Of course, you probably won't read to your children at 2:00 am, or skip a Wednesday morning meeting to go hiking, but you can cut back on how much you watch TV, do laundry, or spend time on other less fulfilling activities. Vanderkam shares creative ways to rearrange your schedule to make room for the things that matter most. 168 Hours is a fun, inspiring, practical guide that will help men and women of any age, lifestyle, or career get the most out of their time and their lives.

The Poverty of Capitalism - John Hilary 2013-10-22

Capitalist growth is widely heralded as the only answer to the crisis still sweeping the global economy. Yet the era of corporate globalization has been defined by unprecedented levels of inequality and environmental degradation. A return to capitalist growth threatens to exacerbate these problems, not solve them. In *The Poverty of Capitalism*, John Hilary reveals the true face of

transnational capital in its insatiable drive for expansion and accumulation. He exposes the myth of "corporate social responsibility" (CSR), and highlights key areas of conflict over natural resources, labor rights and food sovereignty. Hilary also describes the growing popular resistance to corporate power, as well as the new social movements seeking to develop alternatives to capitalism itself. This book will be essential reading for all those concerned with global justice, human rights and equity in the new world order.

Inside Coca-Cola - Neville Isdell 2011-10-25

The first book by a Coca-Cola CEO tells the remarkable story of the company's revival. Neville Isdell was a key player at Coca-Cola for more than 30 years, retiring in 2009 as CEO after regilding the tarnished brand image of the world's leading soft-drink company. This first book by a Coca-Cola CEO tells an extraordinary personal and professional world-wide story, ranging from Northern Ireland to South Africa to Australia, the Philippines, Russia, Germany, India, South Africa and Turkey. Isdell helped put out huge public relations fires (India and Turkey), opened markets (Russia, Eastern Europe, Philippines and Africa), championed Muhtar Kent, the current Turkish-American CEO, all while living the ideal of corporate responsibility. Isdell's, and Coke's, story is newsy without being gossipy; principled without being preachy. Inside Coca-Cola is filled with stories and lessons appealing to anybody who has ever taken "the pause that refreshes." It's also a readable and important look at how companies can market and govern themselves more-ethically and to great success.

**The Man Who Forgave God** -

*Capitalist Nigger* - Chika Onyeani 2012-03-27

Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the Capitalist Nigger, Chika Onyeani charts a road to success whereby black economic warriors employ the 'Spider Web Doctrine' – discipline, self-reliance, ruthlessness – to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.

**How to Be Interesting** - Jessica Hagy 2013-03-19

You want to leave a mark, not a blemish. Be a hero, not a spectator. You want to be interesting. (Who doesn't?) But sometimes it takes a nudge, a wake-up call, an intervention!—and a little help. This is where Jessica Hagy comes in. A writer and illustrator of great economy, charm, and insight, she's created *How to Be Interesting*, a uniquely inspirational how-to that combines fresh and pithy lessons with deceptively simple diagrams and charts. Ms. Hagy started on Forbes.com, where she's a weekly blogger, by creating a "How to Be Interesting" post that went viral, attracting 1.4 million viewers so far, with tens of thousands of them liking, linking, and tweeting the article. Now she's deeply explored the ideas that resonated with so many readers to create this small and quirky book with a large and universal message. It's a book about exploring: Talk to strangers. About taking chances: Expose yourself to ridicule, to risk, to wild ideas. About being childlike, not childish: Remember how amazing the world was before you learned to be cynical. About being open: Never take in the welcome mat. About breaking routine: Take daily vacations . . . if only for a few minutes. About taking ownership: Whatever you're doing, enjoy it, embrace it, master it as well as you can. And about growing a pair: If you're not courageous, you're going to be hanging around the water cooler, talking about the guy that actually is.

Betting on a Darkie: Lifting the Corporate Game - Mteto Nyati 2021-05-06

Today he is one of South Africa's top CEOs.

Black Tax - Niq Mhlongo 2019-09-12

'The real significance of this book lies in the fact that it tells us more about the everyday life of black South Africans. It delves into the essence of black family life and the secret anguish of family members who often battle to cope.' – Niq Mhlongo A secret torment for some, a proud responsibility for others, 'black tax' is a daily reality for thousands of black South Africans. In this thought-provoking and moving anthology, a provocative range of voices share their deeply personal stories. With the majority of black South Africans still living in poverty today, many black middle-class households are connected to working-class or jobless homes. Some believe supporting family members is an undeniable part of African culture and question whether it should even be labelled as a kind of tax. Others point to the financial pressure it places on black students and professionals, who, as a consequence, struggle to build their own wealth. Many feel they are taking over what is essentially a government responsibility. The contributions also investigate the historical roots of black tax, the concept of the black family and the black middle class. In giving voice to so many different perspectives, *Black Tax* hopes to start a dialogue on this widespread social phenomenon.

*The Party Is Over* - Mike Lofgren 2012-08-02

The New York Times bestselling exposé of what passes for business as usual in Washington today. There was a time, not so very long ago, when perfectly rational people ran the Republican Party. So how did the party of Lincoln become the party of lunatics? That is what this book aims to answer. Fear not, the Dems come in for their share of tough talk— they are zombies, a party of the living dead. Mike Lofgren came to Washington in the early eighties—those halcyon, post-Nixonian glory days—for what he imagined would be a short stint on Capitol Hill. He has witnessed quite a few low points in his twenty-eight years on the Hill—but none quite so pitiful as the antics of the current crop of legislators whom we appear to have elected. Based on the explosive article Lofgren wrote when he resigned in disgust after the debt ceiling crisis, *The Party Is Over* is a funny and impassioned exposé of everything that is wrong with Washington. Obama and his tired cohorts are no angels but they have nothing on the Republicans, whose wily strategists are bankrupting the country one craven vote at a time. Be prepared for some fireworks.

**The Deep State** - Mike Lofgren 2016-01-05

The New York Times bestselling author of *The Party Is Over* delivers a no-holds-barred exposé of who really wields power in Washington Every Four years, tempers are tested and marriages fray as Americans head to the polls to cast their votes. But does anyone really care what we think? Has our vaunted political system become one big, expensive, painfully scripted reality TV show? In this cringe-inducing expose of the sins and excesses of Beltwayland, a longtime Republican party insider argues that we have become an oligarchy in form if not in name. Hooked on war, genuflecting to big donors, in thrall to discredited economic theories and utterly bereft of a moral compass, America's governing classes are selling their souls to entrenched interest while our bridges collapse, wages stagnate, and our water is increasingly undrinkable. Drawing on insights gleaned over three decades on Capitol Hill, much of it on the Budget Committee, Lofgren paints a gripping portrait of the dismal swamp on the Potomac and the revolution it will take to reclaim our government and set us back on course.

*Is That a Fact?* - Joe Schwarcz 2014-05-01

The bestselling "quackbuster" and "tireless tub-thumper against pseudoscience" fishes for the facts in a flood of misinformation (Maclean's). Eat this and live to 100. Don't, and die. Today, hyperboles dominate the media, which makes parsing science from fiction an arduous task when deciding what to eat, what chemicals to avoid, and what's best for the environment. In *Is That a Fact?*, bestselling author Dr. Joe Schwarcz carefully navigates through the storm of misinformation to help us separate fact from folly and shrewdness from foolishness. Are GMOs really harmful? Or could they help developing countries? Which "miracle weight-loss foods" gained popularity through exuberant data dredging? Is BPA dangerous or just a victim of unforgiving media hype? Is organic better? Schwarcz questions the reliability and motives of "experts" in this "easy-to-understand yet critical look at what's fact and what's plain nonsense. "Takes its readers through the carnival of pseudoscience, the morass of half-truths and, finally, the relatively safe road of reproducible scientific knowledge. This journey is made all the more enjoyable by Dr. Schwarcz's surgical use of words and his mastery of public writing . . . [He] can always be counted on to write about the chemistry of the world in a way that is both entertaining and educational." -Cracked Science "Written with a light touch and refreshing humor, this book provides a solid, authoritative starting point for anyone beginning to look at the world with a skeptical eye

and a refresher for those further along that path.” –Library Journal

Vanderkam shows how successful people employ certain daily practices to make sure their work hours are invested, not squandered. Drawing on research and interviews with people as varied as children's book illustrator LeUyen Pham, productivity guru David Allen, fitness personality Chalene Johnson, and former race car driver Sarah Fisher, Vanderkam shows how to take control of your career by taking control of your 9-to-5.

Roar of the African Lion - Chika Onyeani 2015-04-20

The African Lion, Dr Chika Onyeani, is back and roaring. The author of the phenomenally successful *Capitalist Nigger* offers a new collection of his

speeches, articles and other writings over the last fifteen years. In *Roar of the African Lion*, Dr Onyeani's unblinking gaze and plain speaking are directed at many of the burning issues of the day. He outlines his revolutionary Spider Web Doctrine—aimed at financial self-reliance and the upliftment of black communities—and attacks the parasitic leaders whose greed has robbed the people of Africa of opportunities for advancement and development since their liberation. He is equally scornful of the failures of the African elite to influence the direction of their countries, and has trenchant comments to make about racism, xenophobia and hypocrisy in Africa, America and elsewhere. Dr Onyeani also tackles the persistence of slavery on the continent, the West's ambivalent attitude to aid and debt relief, rampant corruption and 'whiteness' of Barack Obama. Looking to the future, he cautions Africa to be wary of China's embrace and to pursue its own solutions to African problems.
