Language Testing Reconsidered - Janna D. Fox 2007-06-01

Language Testing Reconsidered provides a critical update on major issues that have engaged the field of language testing since its inception. Anyone who is working in, studying or teaching language testing should have a copy of this book. The information, discussions, and reflections offered within the volume address major developments within the field over the past decades, enlivened by current "takes" on these issues. The real value of this collection, however, lies in its consideration of the past as a means of defining the future agenda of language testing.

Hochschuldidaktik/Resources and Tools for T&I Education - Ursula Stachl-Peier
2020-10-30

Zunehmend bessere Übersetzungsprogramme und neue Berufsbezeichnungen für Translationstätigkeiten führen zur Frage: Welche Ausbildungsprogramme machen die Absolventinnen und Absolventen fit für den Arbeitsmarkt und rechtfertigen die Relevanz einer professionellen Ausbildung? Die Autorinnen und Autoren liefern Antworten zu Ressourcen und Instrumenten der translationsrelevanten Hochschuldidaktik und stellen Projekte sowie erfolgreiche Praxisbeispiele vor. The rapid advance of machine translation technology and emergence of a plethora of new language services which Translation Studies has traditionally included within its remit are posing a major challenge to Translator and Interpreter education. What form of education can schools offer to make their graduates fit for the labour market and ensure their continuing relevance in future? The authors of this book provide answers to resources and tools for Translation and Interpreting Education and present research projects as well as good-practice examples.

Untangling the Web - Aleks Krotoski 2013-05-20

The World Wide Web is the most revolutionary innovation of our time. In the last decade, it has utterly transformed our lives. But what real effects is it having on our social world? What does it mean to be a modern family when dinner table conversations take place over smartphones? What happens to privacy when we readily share our personal lives with friends and corporations? Are our Facebook updates and Twitterings inspiring revolution or are they just a symptom of our global narcissism? What counts as celebrity, when everyone can have a following or be a paparazzo? And what happens to relationships when love, sex and hate can be mediated by a computer? Social psychologist Aleks Krotoski has spent a decade untangling the effects of the Web on how we work, live and play. In this groundbreaking book, she uncovers how much humanity has - and hasn't - changed because of our increasingly co-dependent relationship with the computer. In *Untangling the Web*, she tells the story of how the network became woven in our lives, and what it means to be alive in the age of the Internet.

Communicative proficiency and linguistic development - Inge Bartning 2010

The Common European Framework of Reference for Languages (CEFR) has become the yardstick for teaching and testing language skills in Europe and elsewhere. Yet little is known about the relationships between the communicative levels established using the can-do statements of the CEFR and the developmental stages of grammatical and lexical development described by Second Language Acquisition (SLA) research. This book presents empirical research by members of the SLATE network (Second Language Acquisition and Testing in Europe), aimed at bridging this gap. The studies deal with several target languages, including Dutch, English, Finnish, French, Italian, Norwegian and Spanish, with adult, adolescent and child learners in both formal and informal contexts.

Diagnosing Foreign Language Proficiency - J. Charles Alderson 2006-11-01
This book addresses the need for tests that can diagnose the strengths and weaknesses in learners' developing foreign language proficiency. It presents the rationale for, and research surrounding, the development of DIALANG, a suite of internet-delivered diagnostic foreign language tests funded by the European Commission. The word 'diagnosis' is common in discussions in language education and applied linguistics, but very few truly diagnostic tests exist. However, the diagnosis of foreign language proficiency is central to helping learners make progress. This volume explores the nature of diagnostic testing, emphasizing the need for a better understanding of the nature of appropriate diagnosis. The book starts with a debate about how diagnostic testing might most appropriately be developed. Charles Alderson argues that the field has neglected to construct diagnostic tests, partly because other forms of testing have dominated the field. Alderson examines how proficiency has been diagnosed in the key areas of language: reading, listening, writing, grammar and vocabulary. The value of self-assessment is discussed and exemplified as a key component in developing learners', and teachers', awareness of the complexity of language learning. The book ends with a consideration of and recommendations for future developments in the diagnosis of foreign language proficiency.

Success on your Certificate Course in English Language Teaching - Caroline Brandt 2006-07-04

'Extremely comprehensive and well written in terms of style – accessible to the reader, but intelligent and expressing some fairly subtle concepts. Would that more ELT practitioners could do the same!... Certainly a good read for those thinking about and also those engaged in initial training – or even post initial training stage' - Jenny Pugsley, Head of TESOL, Trinity College London
'It's essential reading whether you are simply curious about what is involved in training in ELT, need advice on choosing the right course, have already enrolled and want to make the most of your course, or are a new teacher just starting out. It's a book I wish I'd had when I was starting out in my ELT career, and that I wish had been available to many of the course participants I have tutored' - Lyn Strutt, ELT author and Chair of the British Council Families Association
Each year, thousands of people all over the world take one of the hundreds of available short pre-service courses that lead to the award of a certificate in English Language Teaching (ELT) or Teaching English to Speakers of Other Languages (TESOL). Caroline Brandt's book is an invaluable guide to anyone thinking of enrolling on one of these courses. With a clear and concise structure that follows your general interest in TESOL right through to the intricacies of the course itself, it can be used from initial research stages to final qualifications, and beyond. Brandt's decades of experience in this field across the globe shine through. Chapters include: -introducing English Language Teaching -becoming qualified -knowing your certificate course -getting started -learning -working together -being qualified. Throughout the book there are snapshots of students' experiences in their own words, and summaries of key points for you to take with you - whether into the next stage of learning or the next day's teaching. The chapters are stand alone resources as well as the building blocks to becoming a fully-qualified English Language teacher. The book is supported by a companion website, which provides quizzes to test understanding of each chapter, lesson plan proformas, a full glossary and annotated website links.

Performance Testing, Cognition and Assessment - University of Cambridge Local Examinations Syndicate 1996

This publication contains a selection of research papers presented at the 15th Annual Language Testing Research Colloquium. This publication contains a selection of research papers presented at the 15th Annual Language Testing Research Colloquium (LTRC). The Colloquium was jointly hosted by the University of Cambridge Local Examinations Syndicate (UCLES) in Cambridge and CITO in Arnhem in the Netherlands. At the Cambridge venue, the papers were presented on the theme of performance testing and at Arnhem, they covered aspects of communication in relation to cognition and assessment. A selection of papers has been made in order to achieve a balanced coverage of these themes. In particular, the research presented includes work on speaking and writing tests where the focus is on raters and tasks; the application of various statistical methods in language test validation; and issues related to language testing in specific contexts and with particular candidate groups.

The Development of a Common Framework Scale of Language Proficiency - Brian North 2000

Scales describing language proficiency in a series of levels can provide orientation for educational programmes, criteria for assessment, and reporting to stakeholders. However, in most cases such instruments are produced just by expert opinion. A scale of language proficiency actually implies a descriptive scheme related to theory but usable by practitioners. It also implies a methodology for scaling content to different levels. This book describes the use of both qualitative and quantitative techniques to develop scales for the «Common Reference Levels» in the Common European Framework of Reference for modern languages. Short stand-alone descriptors were (i) developed and classified, (ii) refined and elaborated in workshops, and then (iii) scaled by analyzing the judgments of one hundred teachers on the English language proficiency of the learners in their classes.
