Tip and Trade - Mark Coakley 2011-04-01

The story of a friendship that started in law school and ended with the largest insider trading scandal in Canadian history, this eye-opening chronicle reveals for the first time how Gil Cornblum and Stan Grmovsek worked together to rip off Wall Street and Bay Street--the Canadian Wall Street equivalent--for over \$10 million. Cornblum would scout around his law offices in the middle of the night, looking for confidential information on mergers or takeovers. When he found something, he would tip off Grmovsek, who would make the stock market trades that would gain them illegal profits. From the joint internal investigation by the Ontario Securities Commission, the U.S. Securities and Exchange Commission, and the Royal Canadian Mounted Police Integrated Market Enforcement Team to Cornblum's resultant suicide and Grmovsek's 39-month prison sentence, "Tip and Trade "covers the discovery of the double lives of the twosome and their inevitable downfall. First-person interviews, conducted with Grmovsek from prison, give insight into what case prosecutors called a classic "Hollywood" insider trading history.

Rich Is a State of Mind - Robert M. Gignac 2003

No Hype - Gail Bebee 2008-02

Guide to Hedge Funds - Philip Coggan 2011-09-20

Hedge fund managers are the new "masters of the universe." The best earn more than \$1 billion a year and are so sought after that they can afford to turn investor money away. The funds they run have, to some extent, established an alternative financial system, replacing banks as lenders to risky companies, acting as providers of liquidity to markets and insurers of last resort for risks such as hurricanes, and replacing pension funds and mutual funds as the most significant investors in many companies—even in some cases buying companies outright. The revised and updated second edition of this lively guide sheds much needed light on the world of hedge funds by explaining what they are, what they do, who the main players are, the regulations affecting them, the arguments as to whether they are a force for good or bad, and what the future holds for them. "More people have a view about hedge funds than know about them. Philip Coggan bridges the knowledge gap in this clearly written guide. Every chapter is a goldmine of information and analysis, making it easy to learn about hedge funds. No investor, no investment adviser, no trustee, no dinner-table conversationalist should express opinions on the sector until they have read this book." —Elroy Dimson, BGI Professor of Investment Management, London Business School "While much has been written about hedge fund strategies and their (occasionally spectacular) failures, we have not yet seen a general primer to help the investor understand the world of hedge funds. Philip Coggan presents us with exactly that—a well-written, succinct summary of a world we all need to understand better." —Rob Arnott, Chairman of Research Affiliates and Editor Emeritus of the Financial Analysts Journal

The Transition Coach - Barry R. McNulty 2004

In the course of your lifetime you'll go through many types of transitions. They're a fact of life. Some happen naturally, such as the progression from childhood to adolescence to adulthood. Others require decision-making and appropriate follow through. When it comes to your dental practice, taking the time and necessary steps to plan for your transition is vitally important. It's not something to leave to chance. Think of it this way. Imagine taking a long drive to a remote location that you've never been to before. Would you load the family into the car one beautiful morning and start out without any preparation? Not likely. Nor would you want to leave without being sure of such vital facts as the condition of your car or being able to get sufficient fuel and food along the way. When it comes to making this type of journey being properly prepared makes sense, doesn't it?

Creating Value Through Corporate Restructuring - Stuart C. Gilson 2010-04-05

An updated look at how corporate restructuring really works Stuart Gilson is one of the leading corporate restructuring experts in the United States, teaching thousands of students and consulting with numerous companies. Now, in the second edition of this bestselling book, Gilson returns to present new insight into corporate restructuring. Through real-world case studies that involve some of the most prominent restructurings of the last ten years, and highlighting the increased role of hedge funds in distressed investing, you'll develop a better sense of the restructuring process and how it can truly create value. In addition to "classic" buyout and structuring case studies, this second edition includes coverage of Delphi, General Motors, the Finova Group and Warren Buffett, Kmart and Sears, Adelphia Communications, Seagate Technology, Dupont-Conoco, and even the Eurotunnel debt restructuring. Covers corporate bankruptcy reorganization, debt workouts, "vulture" investing, equity spin-offs, asset divestitures, and much more Addresses the effect of employee layoffs and corporate downsizing Examines how companies allocate value and when a corporation should "pull the trigger" From hedge funds to financial fraud to subprime busts, this second edition offers a rare look at some of the most innovative and controversial restructurings ever.

E-Mails from the Edge - Lynne Everatt 2006

Told through a series of increasingly frantic e-mails to her mentor, E-Mails from the Edge traces the circuitous career of Constance Beaman, MBA, a middling middle manager at a mega-multinational corporation. Constance works in a world she never encountered in business school: the real world. She is bounced among a kaleidoscopic assortment of bosses, squeezed through the merger ringer, shaken by excruciating exercises in team building, and forced to exude passion against her will.

Market Masters - Robin R. Speziale 2016-02-16

Market Masters is the definitive book on investing in the Canadian market, featuring exclusive and insightful conversations and first-hand advice from Canada's top investors. The Prop Trader's Chronicles - Francis J. Chan 2012-10-03

A practical guide to profiting from the strategies of professional proprietary traders Today's technology allows traders to make faster, more price-sensitive trades and to better read the flow of market information and transactions—opening the way to a wider variety of short-term trading strategies. The Prop Trader's Chronicles unveils these strategies and techniques, which have long been the province of proprietary trading firms and other professional stock traders. This reliable guide describes author Francis Chan's experience as a prop trader in an engaging narrative, but at the same time provides an in-depth explanation of strategies employed by proprietary traders utilizing direct access technologies, Level II quotes, time and sales feeds, and electronic communication networks. Along the way, you'll be introduced to a variety of strategies involved in the rapid day trading of stocks, including: scalping, rebate trading, and advanced reading of time and sales transactions to detect short-term swings. Chang also reveals how to use time and sales data as the modern-day equivalent of 'reading the tape.' Shows active independent traders how they can perform at a higher level by replicating the professional strategies of prop traders Offers valuable insights on how traders can 'read the tape' and better detect short term market swings Describes a variety of prop trading strategies, from electronic scalping to statistical arbitrage The Prop Trader's Chronicles provides a solid foundation for traders looking to improve their performance. With this book as your guide, you'll quickly discover what it really takes to make it in today's competitive markets.

Create Wealth with Private Equity and Public Companies - Norman Meier 2014-04-14

Getting the money you need to finance your business with Private Equity When starting a new business, you will need money. Depending on your business idea, you may not have the necessary funds to realize your idea. Most people think that going through a bank and getting a loan is the only way to get started. They soon realize that banks are not willing to lend money on an idea. Too often, this is the end of the dream. Another way to finance your business idea is to raise money from private investors. There are many great business ideas that struggle to find investors willing to invest. Either they don't have a clear strategy on how the investor can invest or there is concern that the investor will take over control of the business. Investors may be wary if there isn't an exit strategy. The solution to the above problems is Private Equity. Private Equity can be defined as investments in companies that are not yet publicly traded on a stock exchange. A business should be set up in a way that there is a structure and plan for investors to be able to buy shares of the company. There needs to be a clear share structure in place so that the owner of the business does not lose control of the company but at the same time allows investors to participate. This book will teach you the basics of Private Equity and will explain how to structure a company to get it financed. It also covers the advantages on take a company public and how to do it.

Life's Not Over, It Just Looks Different - Christopher Warner 2016-10-12

Life happens, and sometimes it changes in ways that we never expected. After experiencing a surgical complication that rendered me legally blind, I decided there were two choices ahead of me: roll over and die, essentially giving in to the fact that life wasn't going to be the same as before, or get on with life and figure out how to move forward with reduced eyesight. This book shares a personal story of trying to bounce back from a life changing event. There were lots of good days and even some funny moments along the way. But no recovery is ever all smooth sailing. There were also bad days, and times when self-doubt and despair took over. Over time though, I adjusted to the vision loss and learned to embrace the fact that I was given a unique opportunity to see life in a whole new way.

Financial Planning, Supplement - Premier School Agendas 2008-06

The Professional Financial Advisor - John J. De Goey 2003

The financial services industry is in the midst of a transformation from a commission-based industry to a bona fide profession. A number of changes are accelerating this transformation: an ongoing transition to fee-based advice, a crying need for consumer protection and a growing consensus that credentials and training are required. More change is to come. John J De Goey argues that consumers have grown justifiably sceptical about the motives of their advisors and the firms they work for. Unless additional sweeping changes occur, that lost confidence may never be restored. This book makes complex issues understandable for consumers and simultaneously acts as a wake-up call for less professional advisors to pull up their bootstraps or risk being left behind. De Goey's logic clearly demonstrates that the industry has a lot of explaining to do. Consumers, advisors, the media, regulators and politicians will have a role to play in carving out a better way of delivering competent, credible and independent financial advice in the future.

Well-Heeled - Lesley-Anne Scorgie 2014-04-26

Drawing on her own personal experience, financial analyst and public speaker Lesley-Anne Scorgie lays out the roadmap for young women seeking financial independence. Prospectus Exemptions - Québec (Province). Autorité des marchés financiers 2006

The Economic Weapon - Nicholas Mulder 2022

Tracing the history of economic sanctions from the blockades of World War I to the policing of colonial empires and the interwar confrontation with fascism, Nicholas Mulder combines political, economic, legal, and military history to reveal how a coercive wartime tool was adopted as an instrument of peacekeeping by the League of Nations. This timely study casts an overdue light on why sanctions are widely considered a form of war, and why their unintended consequences are so tremendous.

Canadian Cannabis Stocks Simplified - Corinne Doan 2018-07-15

"This book is a primer for Canadians investing in the stock market, but also a guide on the cannabis industry in this country and how to capitalize on it through the stock market. It is for those new to investing, those curious about the opportunities to invest in cannabis stocks, or both."--Provided by publisher

The Disruption Dilemma - Joshua Gans 2016-03-18

An expert in management takes on the conventional wisdom about disruption, looking at companies that proved resilient and offering managers tools for survival. "Disruption" is a business buzzword that has gotten out of control. Today everything and everyone seem to be characterized as disruptive—or, if they aren't disruptive yet, it's only a matter of time before they become so. In this book, Joshua Gans cuts through the chatter to focus on disruption in its initial use as a business term, identifying new ways to understand it and suggesting new tools to manage it. Almost twenty years ago Clayton Christensen popularized the term in his book *The Innovator's Dilemma*, writing of disruption as a set of risks that established firms face. Since then, few have closely examined his account. Gans does so in this book. He looks at companies that have proven resilient and those that have fallen, and explains why some companies have successfully managed disruption—Fujifilm and Canon, for example—and why some like Blockbuster and Encyclopedia Britannica have not. Departing from the conventional wisdom, Gans identifies two kinds of disruption: demand-side, when successful firms focus on their main customers and underestimate market entrants with innovations that target niche demands; and supply-side, when firms focused on developing existing competencies become incapable of developing new ones. Gans describes the full range of actions business leaders can take to deal with each type of disruption, from "self-disrupting" independent internal units to tightly integrated product development. But therein lies the disruption dilemma: A firm cannot practice both independence and integration at once. Gans shows business leaders how to choose their strategy so their firms can deal with disruption while continuing to innovate.

Worry-Free Money - Shannon Lee Simmons 2017-12-19

NATIONAL BESTSELLER "A fresh way to think about your money." David Chilton, author of *The Wealthy Barber* Stop budgeting. Start living. Managing your money can be frustrating and confusing. Life is expensive. Whether you make \$30,000 or \$130,000 a year, it can feel like you're constantly broke. Can you afford that new car, that vacation, that night out? You think so, but it feels impossible to know. And rigid budgets that force you to spend your money in unrealistic ways (like \$9.50 per week for pants) don't make things any clearer. But what if there was a new way to manage your money? One that left you certain you had your bases covered—both for your monthly bills and your future retirement—and then let you enjoy your money by spending it. (Yes, really.) Enter Shannon Lee Simmons, a fresh voice in the world of personal finance, one who understands the new and very real pressures to survive modern life and keep up in the age of social media. Shannon doesn't lecture, judge or patronize. The founder of the wildly popular New School of Finance, Shannon recognized that most of her thousands of financial planning clients felt broke, no matter what their income. And feeling broke can be as bad as actually being broke, because it leads to overspending and misery. So she came up with a new plan: *Worry-Free Money*. *Worry-Free Money* takes a fresh approach to finances, looking at the root cause of the pressure to spend and showing why traditional budgets don't work. It is a deeply practical book that will help you break the cycle of guilt, understand why you overspend, banish unhappy spending from your life, learn to recognize your f*ck it moments and find hope—and fun—in getting your money under control.

Who's Who in Canadian Business 2001 - Gillian K. Holmes 2001-03-01
